VOLUME EIGHTEEN — ST. CLOUD, OSCEOLA COUNTY, FLORIDA THURSDAY, MAY 12, 1927 — NUMBER THIRTY-EIGHT

Meeting of Property Owners Monday Discussed Improvement on Tenth Street

There were quite a few citizens present at the regular monthly meeting of the city commission held last Monday night at which time the improvements to Tenth street were discussed.

It was the opinion of all present that this street east of Virginia Avenue and west of Massachusetts Avenue must be rebuilt at once.

The city engineer placed before those present schedules of estimated costs covering different widths of pavement, and also explained that as this improvement was along the depths of the various lots affected that it seemed fair that the cost be prorated back six lots. Under the figures submitted at that time, which are estimates only, it meant that the sixth lot back from the highway would pay about $15.00 as the pro rata share, and that they would have ten years to pay it in, and it seemed to meet with the favorable opinion of those present. The owner next to the road would pay 11-36 of the cost of the improvement; the next lot, 9-36, and so on down to the sixth lot.

This means that the cost would not be so heavy to those owning property next to the road, and furthermore that those residing or owning property within 150 feet of any highway or street are benefited to some extent, and they should be asked to pay in accordance with the benefit received.

It was decided to get estimates of costs based on making this road according to the state specifications, using lime rock and the penetration method.

A meeting has been called for Wednesday evening, May 18th, at 7:30 p. m., when the figures will be submitted to all property owners affected who care to attend the meeting.

It was apparent that the city commission wanted to do the best for the citizens that they could, and it is hoped that at the next meeting a definite program will be made so that the much needed improvement can be made.

The street should be built for permanency, and it is hoped that the best type will be chosen which will not necessitate repairs being made every few months.

BAPTIST NOTES

The subject for the sermon next Sunday morning at the Baptist church will be "The Man that God Made" and the God that Became Man"; for the evening service, "One Taken and Another Left". On Wednesday evening the Bible study will be the Major and Minor Prophecies of the Old Testament beginning with the earliest prophet, "The Book of Jonah" and taking them in their chronological order and try and make a systematic study of each book. The Whosoever-Will Bible class will have a social on Thursday evening of this week.

Col. T. W. Altsaetter, of Savannah, Ga., is visiting his sister, Mrs. F. K. Berry and family. Mr. Altsaetter is a retired government engineer and is in charge of the engineering of the Miami Harbor.

MASONS WILL CONFER THIRD DEGREE FRIDAY

Holmes E. Crawford, worshipful master of St. Cloud Lodge No. 221, F. & A. M., announces that the third degree will be conferred on Friday evening on a class of several candidates. An invitation is extended to all visiting Masons to be present on that occasion.

All members of the local Lodge are urged to be present and assist in the work. Following the degree work a social hour will be enjoyed, and refreshments will be served. The degree team has been putting in some practice and it is hoped that a large attendance will be on hand.

MEMORIAL DAY PLANS MADE AT BIG JOINT MEETING

On Tuesday evening, May 3rd, a joint meeting of service organizations was held at C. P. Parker's office to make co-operative arrangements for the Memorial Day Celebration.

The G. A. R. was represented by Comrade Goff and Holden; Of the parish War Veterans those present were Comrades Albertson, Ware and Stevens; Of the American Legion; Comrades Byrnes, Trickle and Becker; Of American Legion Auxiliary: Mrs. George, Mrs. Hunter and Mrs Egley; Of the W. R. C.; Mrs. French, and of the Daughters of Union Veterans: Mrs. Raymond. Mr. Thomas of the Odd Fellows, was present and stated that anything they could do to aid and co-operate would be congenial to his organization.

The American Legion Post of Kissimmee was represented by Commander G. M. Shearouse, and Comrades W. J. Nelson, Ed. Newton and Roy Prentiss.

It was decided that the W. R. C. are to arrange for flowers for about two hundred five graves.

Each service organization is to provide flags for their dead. The Daughter of Union Veterans will furnish music.

The parade committee consists of Comrades Trickle, Albertson and Holden. The committee in charge of the services at the lake front consists of Mrs. George, Mrs. Raymond and Mrs. Frank.

The Kissimmee American Legion Auxiliary is cordially invited to participate in our celebration, and we hope to have them march as a body in the parade.

The next meeting is to be Tuesday evening, May 24th, at eight p. m. in Mr. Parker's office, on Tenth street between Pennsylvania and Florida.

Word has been received from Miss E. E. Lindsly and Miss Earl, who are motoring through to their home in Larchmont, N. Y., that on the 5th of May they were joined at Bryn Mawr, Pa., by Mrs. L. B. Rosenthal and Mrs. Geo. M. Mitchell, who are enroute to Huntington, Long Island, N. Y. They report a fine trip with wonderful weather.

Pioneer St. Cloud Residents

CAPTAIN AND MRS. J. H. FARRIS
Who are among the pioneer and honored residents of St. Cloud. They reside on New York Avenue.

Final Plans Opening Peoples Bank To Be Formulated Monday Night

At a meeting of the stockholders of the Peoples Bank of St. Cloud, held last evening, and at which Mr. E. P. Jackson, state bank examiner in charge presided, final plans for the early re-opening of the bank were formulated.

Owing to urgent demands upon Mr. Jackson's presence at Palmetto, Fla., it was impossible for him to set a specific date for the re-opening at this time, however, he has called a meeting of all the stockholders of the Peoples Bank of St. Cloud, both the old stockholders and those parties who have subscribed for the new issue of stock, to be held on Monday night, May 16th, at which time the re-organization will take place and the directors and officials elected and appointed, and the re-opening date set by him.

ALL STOCKHOLDERS are urgently requested to be present at this meeting in order that they may be able to participate in the proceedings.

O. N. Lee Awarded Contract For New Additions to City High School Building

OSCEOLA TEMPLARS TO CONFER DEGREE TONIGHT

Announcement has been made that a degree team composed entirely of Osceola County Knights Templar will journey to Orlando tonight and confer the Order of Malta in full ceremonial, at the regular conclave of Olivet Commandry No. 4; K. T. The team was trained by Sir Knight R. G. Reynolds, of St. Cloud, and it will be the first time in the history of Olivet Commandry that the Order of Malta has been conferred in full ceremonial. All Knights Templar are invited to be present. The officers and degree teams only are required to appear in full uniform.

During June, July and August Olivet Commandry will recess, but a full attendance is desired at the conclave tonight, and on May 26th when the Order of the Temple is scheduled.

FLAG PRESENTED TO SENIOR HIGH SCHOOL

At the Wednesday chapel meeting of the schools, held in the high school auditorium at 10:00 a. m., H. F. Zetrouer, principal, introduced A. S. McKay, a friend of the school, who was given a hearty welcome by the students.

Mr. McKay spoke of the opportunities and advantages the children have today that in his day they were deprived of. He said that he was surprised to see the long line of pupils as they marched to their places in the auditorium from the other school buildings. He expressed a wish that a moving picture could be taken of the line of march, as this would be one of the best kinds of publicity for the town that could be secured.

Ed. Thomas, president of the senior class, was invited to come forward, and in a few well chosen words, Mr. McKay presented to the senior class a beautiful flag. As president, Mr. Thomas accepted the gift in behalf of the class in a most courteous and gracious manner.

Mr. McKay announced that plans are being made for the celebration of Flag Day, which will be June 14th. Elaborate arrangements for this celebration are being made. This will be the one hundred and fifteenth anniversary of "Our Flag."

MUCK FIRE BURNS FOR HOURS

The fire alarm was sent in Saturday evening and the chemical engine responded and put out a grass fire that was getting under quite a headway down on the lake front near Fourth Street. Some time later the alarm was again sounded and in response it was found that the muck ground was on fire. Hours were spent by the department and thousands of gallons of water were used in controlling the flames that threatened nearby homes.

On Sunday morning the alarm was again given, the flames having broken out anew in the muck soil, and nearly the entire day was spent in throwing water on the fire.

The contract for the additions and alterations to the St. Cloud high school building was awarded to O. N. Lee, local contractor, who was the successful bidder. The contract price was approximately $44,000. Ground was broken the first of the week for the foundations for the extensive building program, which is to be rushed to completion by the opening of the fall term of school.

The additions consist of a modern laboratory room 22 by 51 feet, which will be equipped with all modern appliances and conveniences for the physics and chemistry classes; the basement, which will be 66 by 74 feet, will be occupied by domestic science and sewing classes, dining room and kitchen; the first and second floors will have four rooms each of which will be 22 by 27 feet; the library and Red Cross rooms will be 18 by 25 feet; teachers' private room equipped with toilet, lavatories and all conveniences. There will be a corridor on both floors and in the basement.

The stage will be enlarged 16 feet full width of the building. The stage opening will be 35 feet wide and 12 feet high with dressing rooms added on the outside. Each room will be 12 by 16.

The building material used will be brick, tile and stucco, and the roof will be of sheet metal. When completed this will give St. Cloud school facilities second to none in the county, and will also relieve the overcrowded condition of the schools.

YOUNG EVANGELIST HOLDS OLD TIME GOSPEL MEETING

Announcement is made that Bart L. Freeking, young evangelist from Orlando, is holding a series of old time gospel meetings at the big tent on the corner of Pennsylvania avenue and Tenth street. Services started Thursday, May 5, and are being held at 7:45 p. m. every evening except Saturday. A cordial invitation is being extended to everyone, as the meetings are undenominational.

With Mr. Freeking are Mr. and Mrs. Albert Boyer, choristers, and Miss Eunice Symonds, evangelist and singer. The evangelistic party has come to St. Cloud from Pompano, where they spent three weeks. Mr. Freeking is a former student of the Findlay Bible Institute, Findlay, Ohio.

NEW COUNTY IS PROPOSED

TALLAHASSEE, May 10.—The first measure proposing the creation of a new county reached the house of representatives today. The bill, introduced by Representative C. W. Bruns of Osceola county, would create Fletcher county, to be named after United States Senator Duncan U. Fletcher, by dividing Osceola county.

Kenansville would be the temporary county seat of the county, which would be in the Fourth congressional district, The Thirty-third congressional district, and the Twenty-first judicial circuit.

The new county would have one member in the house of representatives of the state legislature. The bill was referred to the committee on county organization.

St. Cloud Post of American Legion Has Plan For Erection of a Home

As always, the legion came to the front in the matter of the flood sufferers, having raised the amount of $78.00 for the relief of conditions in the devastated district. Every cent of this money was raised from among the membership of the local post, which, when we consider that the post is composed of young fellows, most of whom have families and no steady work, is not so bad. The above amount is a strictly American Legion contribution, sent through and administered by American Legion organization, and should be added to, not considered a part of the splendid contribution raised by our citizens and organizations through the efforts of the local Red Cross. In figuring up what St. Cloud has done, please do not fail to add in the Legion's quota.

A partial canvass of the property owners along that part of New York Avenue which is being improved has resulted in the donation to the local post of practically all of the old curbing which is being torn out by the contractor. Comrade Trickle found the contractor looking for the owner of a certain lot on New York avenue, to the rear of which there is a considerable depression, in order to get that owner's permission that this material be dumped there and covered with sand, thus filling the hole and getting rid of the broken curbing. It had already been proposed at Legion meeting that a very cheap and substantial club house could be constructed by and for the Legion fellows out of the waste bricks which are to be noticed along our streets and the county roads, and this waste of perfectly good building material appeared to be a good opportunity for the post. The representative of the Fresh-water paving interests obligingly agreed to dump this material anywhere within a reasonable short hauling distance of the work and Comrade Parker readily allowed a nearby lot belonging to him to be used for this purpose. Within a day the post found itself in possession of enough building material for the side walls of a commodious building. The boys are now looking for somebody who will donate a suitable lot to the post and the dream of a few years ago of a Legion Home will soon be translated into a "concrete" fact.

The work of the Legion at the municipal ball park east of the city is estimated to be one quarter accomplished. The Auxiliary is planning to serve a supper on the job next Thursday night for those who will turn out and put in the day. If this don't bring out the necessary mass power to make a big dent in the job, it is hard to think what will. The northwest quarter of the field, which was the lowest, is practically filled in, the earth having been raised three feet in some spots. The balance can be largely handled by the use of the grader, although if two tractors are available, scoops will be used also. The invitation to the supper is extended to all who will come and put out, even though not members of the Legion.

Don't forget to leave word at the A. & P. Store if you have a job of work to do. Let a Legionnaire do it for you. With National Clean Up and Paint Up Week coming on, from May 16th to 21st, there should be plenty of odd jobs developing.

Memorial Day plans are laid for the Kissimmee Post to come here in a body and participate in our observance of the occasion. In return the St. Cloud Post plans to spend the July Fourth in Kissimmee, where plans are under way for a mammoth celebration. There will be a barbecue, fireworks and a general big picnic. Do not fail to attend both occasions.

Small Attendance At Chamber of Commerce Luncheon Held Last Wednesday Noon

That many of the regular attendants at the chamber of commerce luncheons are out of the city, was very perceptible at the noon lunch and business meeting Wednesday. President Wm. Landis being absent from the city, Mrs. M. Puckett-Foster, vice-president, presided.

After the minutes were read and approved, H. F. Zetrouer, principal of the schools, introduced J. N. Dewey representative of the Florida School Supply Company, Tampa, who said that he was not much of an after dinner speaker, especially after such a good one as he had just enjoyed. Mr. Dewey is from Rochelle, Florida, the former home of Mr. Zetrouer.

Mayor C. P. Parker was present and announced that he had a petition to be presented to the state legislature, opposing the establishment of a court of criminal records, and that he would give all who wished to do so an opportunity to sign it at the close of the meeting. This brought forth a general discussion. Motion was made by R. L. Steen that the chamber of commerce go on record as supporting the petition. The chair suggested that as the question was of vital importance, and one on which many were not posted, that it should be taken under advisement for another week. The suggestion was over ruled and the motion was carried.

Since the American Legion and other organizations of Kissimmee have promised to assist in the Memorial and Armistice Day celebrations here in St. Cloud, the Kissimmee invitation for the Fourth of July was accepted.

At the conclusion of the meeting, R. L. Steen announced that some parties were going to Orlando to inspect a sample of street paving immediately after adjournment, and invited all who wished to so to go with them.

PRESBYTERIAN LADIES HOLD ALL DAY PICNIC

Tuesday was the regular meeting for the Presbyterian Ladies Aid and they decided to mix business with pleasure. At an early hour they motored out to the home of Mrs. John J. Johnston, on the shore of Hummymede lake, where an old fashioned basket picnic was enjoyed. This will be a long remembered day by all especially the children who enjoyed bathing in the cool waters of the lake.

A letter was read from Mrs. James Callan, stating that although the people were treating them fine in Colina, still they were not her St. Cloud friends.

All were requested to save their Mother Oats packages, thus adding to our supply of silver. Plans were made for work to be done during the summer for the fall bazaar.

The following new members were received: Mrs. French, Mrs. Hershey, Mrs. Norris and Mrs. Phipps.

Trees four feet in diameter that never grow more than one foot high have been found in Africa.

City Manager Asks Co-Operation In Protecting City Park Property

It is an accepted fact that the City Park, or Tourist Park, as it is generally called, is one of the best social and recreational assets which the city has to offer to its residents and guests. All are familiar with the programs which are given during the winter months for the entertainment of everyone in the city, and the city has tried to keep this park and club house in good shape and to carry out as far as possible all requests that are received which mean added conveniences or entertainments.

It is costing the city a lot of money weekly to repair the damage which is done around the park and in the club house by the children of the city.

The electric light bulbs are stolen weekly, or else broken. They even enter the caretaker's room and have stolen a clock which was personal property. They fill the toilets with all kinds of refuse. They break the shuffleboard sticks and throw the discs around. Sometimes the water is left running all night out in the yard. And so on, with a great variety of tricks, which are fast mounting into quite a sum of money.

At the present time the caretaker is washing off the walls, and cleaning up in fine shape, but with all these petty troubles every day, it is an aggravation; and furthermore, it is not fair to the tax payers that the city should spend money repairing damage which the children are doing, which, if the respective parents knew about, would be quickly remedied.

With the paving now going around the park, the low spots in the lawn around Seventh and Eighth Streets and on Ohio Avenue are being filled. This means that a new lawn will have to be made, and the city asks that all parents please speak to their children and ask them not to run on these places whenever the children go over to the park to play. It would be a shame to have to fence off parts of the park just to let the grass get a start, and we are sure that with the continued co-operation of the citizens that we can keep this one beauty spot in good shape.

The ordinances of the city specifically provide that bicycles shall not be ridden on the walks, and yet children insist on riding on the walks around the park, which of course is dangerous to all who use the park, and when they are spoken to about the matter they get very indignant!

Whenever the caretaker leaves the grounds for a few minutes in the evening, then is the time that the children pick out to chase around in the building, on the porches, and even on the roof. They do not deliberately attempt to do any damage, but while they are having what they call a good time, many things happen which costs the city money to replace or repair.

It has reached the point, where the children must behave in the park, or else the club house must be locked at all times when the caretaker cannot be right there to watch what is going on.

We believe that if the situation is placed squarely before the people, that they will speak to their children. The park is just as much for the children as anyone else, and we ask that it be not abused.

The matter has been placed in the hands of the Police Department and we hope that it will not be necessary to bring any children before the Police Court for reprimand.

City Manager.

"All Florida Festival" To Be Held at Melbourne on Fourth of July

By H. B. FIELDING

Fifty (50) cars will leave Melbourne on a good will motorcade loaded with enthusiastic Melbournites, the first part of June to extend invitations to all cities and towns to attend the "All Florida Festival" to be held at Melbourne, July 4th, 1927. Route to cover east coast to Fort Pierce across to Okeechobee, up through the center of the state to Orlando, and down the east coast home. Trip calls for 2 night and 3 noon stops, the scout car will complete the itinerary and will then advise you of the complete route. Mr. O. J. (Peter Rabbit) Abbott is chairman of the motorcade, and believe me he knows his business and you will enjoy meeting him.

We expect to have the Legion band on the motorcade. Can your band make more noise than ours?

We are more than gratified with the number of acceptances of our invitations to attend this festival. They are coming in every mail and we are looking forward with great pleasure to your visit here. Many state that their organizations are coming 100 per cent. Some are preparing floats; some a band. The section of the big parade known as the "Horribles and the Antiques" will be a scream.

Added Feature

Well!! what do you think? We are going to have a Baby Parade at the board walk at the Indialantic Beach. Gee!! but you should see the prizes. Don't forget to bring that fine baby boy or girl. Certainly!! You may bring twins or triplets.

Don't forget your bathing suit. There is no law against your coming over Saturday or Sunday and spending the week end with us and enjoying the wonderful surf bathing at Indialantic-by-the-Sea.

MRS. BEVANS WRITES OF MISSISSIPPI FLOOD

A communication received from Mrs. C. D. Bevans gives an interesting picture of conditions in the flooded Mississippi area through which she and Mr. Bevans were compelled to pass in the course of their journey by automobile to Red Oaks, Iowa. Mr. and Mrs. Bevans left St. Cloud several weeks ago for their northern home. Mrs. Bevans writes:

"We were enroute three weeks. These were days of various experiences. From thirty or forty miles south of New Madrid we drove at a furious speed to get through this town where at any moment the levee was expected to break. Many acres of land on either side of the road were under water. We drove between posts where the water was up to the car and a man was stationed there to pull cars through when needed. In the streets of New Madrid the water was up to the car.

"Leaving this town we turned away from the river and reached a higher elevation. A few days later the levee broke, and it would have been an impossibility to have gotten through at all.

"North of here we drove several miles around to avoid a newly worked road where two tractors were kept to pull cars through day and night. The night before we reached this place, seventy-four cars were waiting to be pulled through.

"We reached St. Joseph, Mo., and learned that we could get but a few miles farther. The roads were impassable, so we were detained here from Tuesday until Saturday. We got as far as Bedford, Iowa and had to remain there a week, but finally arrived at our home with hearts full of gratitude.

"Mr. Bevans is now in the Nicholas Sen hospital for the amputation of a finger that was injured in an accident last August."

A Real Home For Funerals

Our new funeral home is one of the best equipped establishments of its sort in the state.

Everything within its walls has been ordered with a view to comfort, convenience and a soothing atmosphere. A beautifully arranged chapel, with private retiring rooms and exits facilitate the service.

—all arrangements and equipment at your disposal when needed at reasonable rates.

MORTICIANS

MICHIGAN ASSOCIATION

On Wednesday afternoon, May 4, the Michigan association met in the club house with a large number present. The singing of America was followed by prayer by Mrs. F. R. Riley. Minutes of the previous meeting and treasurer's report showing $10.00 in the treasury.

Mrs. Wm. Abbott had prepared the following program, which was a delight to the audience:

Reading—"The Twilight Song" by Miss Mae Loomis (for encore, "Hush My Dear Lie Still and Slumber.")

Reading—"Then He Woke Up", by Mrs. Frances Riley.

Song—"The Sanitary Fair," by Mr. Marshall.

Violin solo—Mr. Wm. Abbott, accompanied by Mrs. Abbott.

Reading—"Don't Fly Too Soon" by Mr. Goff.

Mrs. Chas. Miner gave a very interesting talk about Dr. Floyd's family.

Mrs. Francis Riley invited the association to meet at her home on her birthday which will be July 10. The meeting adourned to meet in July.

FRANCE R. RILEY, Sec.

FLORIDA WILL LEAD LEGION PARIS PARADE

The Florida department of the American Legion will lead the great annual parade through the streets of Paris at the ninth annual convention of the Legion in the French capital in September, it was announced yesterday by A. Rice King, department commander and France travel officer for Florida. Florida was given this distinction because of its all around record and efficiency.

By leading the 1927 parade, the Florida department is at the head of the procession for the third time in four years, having led the national parades at the conventions in St. Paul and Omaha in 1924 and 1925. In 1926 Florida was second in line at the Philadelphia convention.

A five-mile line of parade through the heart of Paris on the opening day has been tentatively agreed upon. It was stated by Commander King, following receipt of information received from Howard P. Savage, national commander.

Reservation for the trip to France from Florida Legionnaires are coming in steadily, the France travel officer stated. A goal of 600 World war veterans aboard the steamship Pennland, the ship that will carry the Florida delegation to France from Newport News, Va., has been set by department officials.

Jacksonville Legionnaires anticipating making the trip are urged to send their reservations to Herman Ulmer, travel officer for the Edward C. DeSaussure post of this city. Other members of the American Legion are to make their reservations with the France travel officer of their respective posts, Mr. King pointed out.

The Florida delegation will leave Jacksonville September 7th on a special train over the Seaboard Air Line for Newport News, via Richmond. The Pennland will sail September 8th.

The trouble with being thrown on your own resources is that it so often happens when you haven't any.—Boston Transcript.

Tanlac Helped Me It Will Help You

After Suffering for 4 Years From Kidney Trouble, Indigestion and Run-Down Condition Caused by "Flu," Retired Farmer Regains Health and Strength.

Mr. F. W. Orme, a well-known Montgomery, Alabama, resident living at 813 Clay Street, says: "After years of despair, pain and worry caused by the 'flu' I regained good health, new strength and youthful energy . . . Thanks to Tanlac.

"Imagine not being able to eat without suffering from pains and the burning sensation of indigestion. That was my plight. And the poisons caused by sluggish liver sapped my strength, and wore me down to a shadow. I became nervous. I was always tired. Dizzy headaches became more frequent.

"In search of relief, I tried Tanlac. The results amazed me. I began to sleep better, eat my food with relish and without suffering from indigestion pains. I gained weight.

"Tanlac made a new man of me. I now enjoy robust health, sleep like a child. But I have not stopped taking Tanlac for it is the one remedy for continued good health, for keeping strong. No one troubled as I was can go wrong taking Tanlac."

Tanlac has helped thousands of men and women in the South. It is Nature's own remedy, made from roots, barks and herbs according to the famous Tanlac formula. The first bottle brings wonderful relief from pain. Keep up the treatment and all troubles vanish, you grow stronger, healthier, more robust.

Don't neglect your health, don't suffer from pain needlessly, begin taking this wonder tonic now. Ask your druggist for Tanlac—today! Over 40 million bottles sold.

NEW SCHOOL BUILDING NEARING COMPLETION

The above picture is the architect's drawing of the latest addition to St. Cloud's splendid school facilities, the new school building located between Vermont and Dakota avenues and Eleventh and Twelfth streets, in the western section of the city.

The plans for this beautiful new building were made by Lockwood, Pomelstone and Billie, of Atlanta, Ga., and the contract was let to J. B. Carrol and Co., at a cost of $42,000.00, and was erected under the supervision of Marcum.

The new building, which will be completed by May 15th, is of concrete and stucco construction, contains six class rooms, principal's room and large assembly room. The building is of the California unit system, and so arranged that it can be added to, as the future growth of the school warrants.

The St. Cloud school has grown so rapidly during the past few years that all grades from primary through grammar school have been divided. This new building will relieve the crowded condition which now exists, and will be of convenience to the children living in the western portion of the city, and will be used next school term to care for one division of the grades from the first through the sixth.

The building is modern in every respect, being well lighted and well ventilated, and will be adequately equipped to care for the needs of the pupils. The building is a credit not only to the architect and contractors, but to the school officials as well.

REPORT OF RED CROSS NURSE FOR MONTH OF APRIL

Health is the most salable product in the world. Thrifty wives and hard headed business men, who do not buy an article of furniture for house or office without absolute proof of its worth, will seize assiduously upon every panacea for physical ills which ingenious heads concoct to fill their purses.

Health can not be bought in bottles, medicine taken without knowing for what or why can work serious harm. Let's be sure what produced our troubles, then, and only then, can we intelligently begin to correct them. Health in a large degree is determined by the way we live. Its foundation is laid in infancy and there is no trade on the market that can be used as a substitute for regular health habits, eating, sleeping, cleansing and exercising.

Our greatest problem in school health work is formation of health habits. (the real building material for the house of health.) Many of the boys and girls who were inspected, their defects pointed out to them last September, today have the same bad teeth, diseased tonsils, as well as irregular health habits they had then. Oh! if only they and the parents could realize the truth of the old adage, "A stitch in the time save nine," there certainly would be a great reduction of sickness, pain and anxiety.

A large portion of this month's work has been devoted to individual inspections of 424 in St. Cloud school. There are 294 who have some defect that can and should be corrected. Am happy to find at least 130 who have had defects corrected, also marked evidence of regular health habits being formed. Thirty report who have taken hook-worm treatment during this term. As a result their general physical condition, as well as their class work, has greatly improved.

Defects and corrections are:

	Def.	Cor.
Vision	....	2
Eyes	11	8
Teeth	122	79
Throat	30	10
Adenoids	9	2
Posture	5	..
10% under weight	20	7
Over weight 20%	8	3
H. W. postive	..	30

Visits in behalf of general activity 30. Office interviews concerning work, 25. Consultation with mothers in regard to children, 17. Sanitary inspection of buildings and grounds, 5.

Have visited all seven of my schools twice or more this month. Given 13 class talks. Visits to schools, 31; to rooms, 40; visits in behalf of nursing service, 37; visits to or in behalf of cases, 36; interviews with or in behalf of cases, 12; Eight pupils completed diptheria immunization. Have conducted eight home hygiene classes composed of senior and junior high school girls. I was off duty eight days on account of illness in my family. One and one-half days was devoted to receiving funds for Mississippi flood district; funds received more than doubled St. Cloud's quota set by the National Red Cross. Have given tests to three boy scouts on personal and public health. Have sent to parents, notes in regard to every child inspected, also distributed in this way 273 booklets on school lunches, diet for under weights, diseases of childhood prevention and cure. Have mailed five specimens of feces to be examined for hook-worm by the State Board of Health.

There was quite a good interest taken in the swimming directed by Miss Sarah Clark and J. G. Hollis, with the fact in view that Mr. Hall of National Red Cross would be here this week to test out any who could qualify as life savers and as instructors, but word just been received that Mr. Hall has been called to the Mississippi flood district and has cancelled all his engagements in Florida for this season. However, we hope no one is discouraged, also that many are taking advantage of these instructions and the booklets distributed.

BERTIE LEE HUNTER,

CONGRESSMAN SEARS TO ADDRESS VETERANS' ASSOCIATION

The Veterans' Association was called to order Saturday afternoon by President Lathrop and the meeting was opened by singing "America," followed with prayer by L. M. Parker. The minutes of the previous meeting were read and approved. The Florida song and the St. Cloud "Yell" were given. Announcement was made that Congressman W. J. Sears will speak in the G. A. R. hall next Saturday at the regular meeting of the Veterans' association.

As our chaplain has gone north for the summer, L. M. Parker was elected to fill his place during his absence.

The social hour was turned over to Comrade Perkins and the following program was enjoyed:

Drum corps: Comrades Raymond and Shambow with drums, and Gillmore with fife, gave several selections.

Song—"The Little Georgia Rose," by Mrs. Linam, accompanied by Miss Willma Linam.

Address—"Good Citizenship" by L. M. Parker.

Banjo solo—Comrade Worrill.

Reading—"Jeff Davis Built A Wagon" by Comrade Norris.

Song—"No Sir, No" by Mrs. Josephine Perkins.

Reading—"When I Went to the Vaudevillian", by Comrade Blackman.

Piano solo—Mrs. Brewer.

Piano solo—June Johnston.

Song—Comrade and Mrs. Frank Kenney with banjo accompaniment.

Piano solo—Miss Browning.

Duet; piano and violin—Comrade and Mrs. Raymond.

Drum corps—Comrade and Mrs. Raymond with drums, Comrade Gillmore, fife; and Comrade Beauchamp with tenor.

Meeting closed with singing "The Star Splangled Banner."

The social hour will be in charge of the W. C. T. U. ladies next Saturday.

JOSEPHINE PERKINS,
Secretary.

WILLIAM PETERSON

William Peterson, known to all as "Uncle Bud," was born at Kissimmee, Fla., in 1857. He died May 5, 1927, and was buried at Narcoossee.

He was one of eight brothers. His parents were Mr. and Mrs. Mike Peterson, who, with other relatives, had keenly his going. The funeral services were conducted by Elder W. H. Mann.

Maybe those long skirts were badges of servitude and all that, but they certainly preserved many a now shattered illusion of beauty.—Detroit Free Press.

In the University of California mineral collection is a spruce cone completely changed to opal.

ANANIAS WOULD BE ABASHED AT THIS

Fish Story Would Take Prize If Told In the Court of the King of Liars

It is not often the Democrat is privileged to offer a prime fish story so early in the season, but you know what warm, spring days will do.

Last week while Clarence Lair and Karle Rohs were fishing in South Licking near Lair Station, Mr. Lair, after baiting his hook with a choice fat minnow, dropped the line over the side of the boat, and proceeded to straighten the line which was tangled near the reel. In a few seconds he noticed his bobber go down, but thought the minnow was frisking a bit and paid no attention to it. Again the bobber went down, but Mr. Lair continued fussing with the tangled line.

Finally, the line straight, he pulled on it to see if the minnow was all right. He tugged at the reel, and tugged and tugged, but did no good. Then he began pulling the line in hand over hand, and presently a large object appeared on the surface and proved to be a three-gallon jug.

Investigation showed the line extending down through the neck of the jug. It could not be pulled out. Then the jug was broken and the mystery was explained. The minnow had dropped into the jug and been swallowed by a two-and-a-half pound bass, a prisoner therein. It was surmised the bass when quite small wandered into the jug, made it his habitat, grew and flourished there until to his surprise he found himself too large to make his exit. Naturally the food supply of his narrow quarters was considerably restricted and when the minnow popped through the neck of the jug the bass gobbled it up like a life-saver with a hole in the center.

In relating the tale Mr. Lair declared Mr. Rohs would vouch for its truth in its entirety.—Cynthiana Democrat.

Mrs. H. H. Morgan brought this fish story from her home paper, the Falmouth (Ky.) Outlook. Since the editor of the Tribune is a Kentuckian, we print the story for what it's worth although we won't vouch for its veracity.

GOVERNOR MARTIN SIGNS BILL AFFECTING ST. CLOUD STATUS

TALLAHASSEE, May 7.—Twelve local bills passed by the legislature were signed today by Governor Martin. They follow:

Abolishing the present municipal government of the town of Cleveland creating a municipality to be known as the town of Collier City; creating the city of Orlo Vista; authorizing the assessment and collection of taxes at St. Cloud; abolishing the municipality of the city of Floranada.

Validating and approving elections at Plant City for adoption or rejection of a proposed charter; authorizing Center Hill to issue and sell bonds; authorizing Inverness to borrow $25,000; validating special assessments and liens for improvements and contracts at St. Petersburg, and providing for the relief of Roy O'Bannon, individually, and as tax collector for Palm Beach county.

County and Home Demonstration Work

During the past year county agents have been employed in forty-seven counties of Florida and home demonstration agents in thirty-one counties. In all, fifty-four counties have been served by county extension agents. This is the largest number of county and home demonstration agents in the history of the work in Florida. The supervising force of Florida is smaller than in any other state and statistics show that in county support Florida holds fourth place in the entire United States. That is, there are only three states in which the counties make a larger expenditure for each dollar spent by federal and state governments. Several countries in Florida are paying the entire cost of the county agent's work. This would indicate general approval of the work that county and home demonstration agents have accomplished.

The International Association of Clothing Designers and the National Association of Retail Clothiers and Furnishers agree that the American man is the best dressed.

The United States food bill shows an annual retail valuation of between eighteen and twenty-two billion dollars. More than 43.1 per cent of the average workingman's family budget is expended on food.

A Word With the Old Folks

Elderly People Are Learning Importance of Good Elimination.

IN the later years of life there is apt to be a slowing up of the bodily functions. Good elimination, however, is just as essential to the old as to the young. Many old folks have learned the value of *Doan's Pills* when a stimulant diuretic to the kidneys is required. Scanty or burning passages of kidney secretions are often signs of improper kidney function. In most every community are scores of users and endorsers who acclaim the merit of *Doan's*. *Ask your neighbor!*

May 15, 1927

PETER AT PENTECOST

Lesson text—Acts 2:12-14; 32-41

This lesson is taken up at the point where Peter comes into the Pentecost story. One should carefully read the opening verses of this much misused chapter.

Pentecost means "fiftieth." Fifty days after the redemption of Israel from egyptian bondage, Israel stood at the foot of Mount Sinai, and Jehovah made a covenant with them. It was Pentecost.

The disciples had seen the Passover fulfilled in the sacrifice of Christ, the Lamb of God. The resurrection of Jesus had fulfilled the ceremony of the "wave sheaf" (Lev. 23:10, 11; 1 Cor. 15:20) at the close of the Passover celebration. It would be most natural that the disciples should expect some further consummation of the covenant of redemption at the Pentecost season.

The sound from heaven was an advance sign of the Holy Spirit's approach. The tongues of fire were pledges of the conquering might of the Spirit that should attend the preaching of the crucified and risen Savior throughout the age. Fire is often, in Scripture, the symbol of God's presence and the power of his truth.

"They were all filled with the Holy Ghost and begun to speak with other tongues" (v. 4). It was a special miracle to arrest attention, confirm the promise of Jesus and secure the rapid spread of the gospel among the different peoples gathered for Pentecost. Thus the Gospel was given a miraculous send-off. The good seed was carried to many parts from which the visitors had come, and a great harvest sprang up in many places.

The particular thing to be noticed is that the tongues were understood and the hearers were benefited. It was not a jargon, and those who today have true Pentecostal power will utter the great truths of the Gospel in words that can be understood (vs. 5-10).

The miracle of these uncultured people speaking in languages they had never learned gave rise to great consternation. "What meaneth this?" (v. 12). Some rash people said: "These men are drunk" (v. 13). The devil always has his mockers on hand to hoot at everything that is above the level of the life of this world.

It was at this point that Peter, now filled with the Holy Spirit, rushed to the front. In what follows we have a life-size photograph of the real Peter. He who had often been impetuous and unbalanced becomes a burning orator with something in his tone never heard before. We had taken him for a dull student, certainly not an expositor, yet now without notes, he opens up Joel, goes into the Psalms and expounds the doctrine of Christ from beginning to end.

John Wesley, when once passing a market with a friend, saw two women quarreling. They were shouting and making wild gestures. "Come away, John," said his friend, "I can't bear to hear them." "No, wait," said Wesley, "and learn how to preach."

Preachers will do well to study peter and his Pentecostal sermon. It is full of the Bible and Christ. This man with the smell of fish scarcely off his hands, preached his first sermon, and there is nothing in the Bible to beat it.

He goes into the humanity of Christ (v. 22), the miracles of Christ (v. 22), the ascension of Christ (vs. 33,34), the deity of Christ (v.36), the gift of Christ—the Holy Spirit (vs. 33,38).

Note his positiveness. "Men of Israel, hear these words" (v.22). "Men and brethren, let me freely speak unto you" (v. 29). "Let all the house of Israel know assuredly" (v. 36). He took good aim. When a preacher or teacher has the "Thus saith the Lord" back of him, he can say something. If he is without it, it would be better to remain silent.

It is impossible to thoroughly study the entire sermon in one lesson. The lesson therefore skips to v. 32 where Peter boldly contends for the fact of the bodily resurrection of Jesus. "This Jesus hath God raised up, whereof we all are witnesses." (v. 32). He was not talking to folks who lived some centuries after the reported resurrection—but to men at that very time who knew perfectly well what had happened. He knew he was relating facts they could not deny. In no other way can we account for his boldness. Without the resurrection there would have been no church.

He goes to the Old Testament and brings out David's resurrection prophecy. It should be clear to all that no kingdom offer could have been made and no David's throne could be possible until there was a resurrected King (vs.34-36).

The Jesus they had crucified God had shown to be both Lord and Christ (v. 36). "They were pricked in their heart and said, What shall we do?" (v.37). The heart is the right place to be pricked. "With the heart man believeth unto righteousness" (Rom. 10:9, 10). Salvation is a heart affair. A stuffed head will never take a man into heaven.

God help the preacher, or teacher, who is careful to speak so as not to disturb consciences. Away with the soothing syrup method. Give us Spirit filled men like Peter who will declare the whole counsel of God and let the Holy Spirit take care of it. We have heard of a minister who so preached that a man came to him after the sermon and said, "Almost thou persuadest me to be a heathen."

Peter promptly answered the inquirers, "Repent and be baptized in the name of Jesus Christ for the remission of sins and ye shall receive the gift of the Holy Ghost" (v. 38). The heart broken for sin, and from sin is the first step toward salvation. It is too easy to get into the church in these days. It will not be so easy for some church members to get into heaven.

Baptism was also required. There must be not only an inner acceptance of Christ but an outward confession and acceptance in baptism.

Where Christ is truly received, the gift of the Spirit will also be received (v. 38), for this is declared to be for all who have received the remission of their sins.

Peter does not say that all will speak in unknown tongues as a sign that they have been born of the Spirit. The permanent fact of the church is that "the Spirit beareth witness with our spirits that we are the children of God" (Rom. 8:16).

The Christian man will be himself—but enlarged, ennobled, developed. Whatever his natural powers were, the Spirit will magnify and use them as he surrenders to Christ, and the Spirit will develop other faculties which he did not know he possessed.

PITH AND POINT

On the first Pentecost the law was written on tables of stone. On the last Pentecost it was written by the Spirit on the living tables of hearts.

The tongue is the principle instrument of the grandest work in the world. Tongues of fire suggest man's voice coupled with God's power and truth.

Pentecostal power was plainly a spiritual qualification for bearing intelligent witness, not a mere spiritual ecstasy for personal enjoyment.

He who knows nothing of the impulses to tell others of Christ's redeeming love shows that he knows not the meaning of Pentecost.

The reason some desire not the fullness of the Spirit for witnessing is their fear of the "mockers" (v. 13).

The Spirit-filled life does not make fanatical but joyful and practical Christian workers.

The fullness of the Spirit is fundamental to a blessed, fruitful life, and is the most conclusive answer to the critics.

Little moral essays and chats on current events will cause no one to ask, "What must I do to be saved?"

SUGGESTIVE QUESTIONS

When for the first time the Gospel branched forth to the Gentiles, what events occurred, bordering upon those of the Jewish Pentecost? (Acts 10:46).

Was it customary for God to use miraculous signs in attesting a new era as being of His appointment? (1 Cor. 1:22; Acts 2:22; Heb. 2:2-4).

Was speaking in unknown tongues to be a permanent sign for all believers? (1 Cor. 13:8; 14:9, 12, 19, 23, 24, 28, 39).

Is repentance still to be preached? (Lk. 24:47).

How may one know that he has the Holy Spirit? (Rom. 8:14-16; Gal. 5:22, 23).

Did Jesus, in his preaching days, have any such results as Peter had following his sermon? (Jn. 13:12).

How does the number who were slain after the law of Moses was given (Ex. 32:28) compare with the number saved after the Pentecostal inauguration of the heavenly kingdom? (Acts 2:41).

GOLDEN TEXT ILLUSTRATION

Golden Text: "Repent, and be baptized, every one of you, in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost" (Acts 2:38).

Dyer well says: "There is no going to the Fair Haven of Glory without sailing through the narrow strait of Repentance." Not only does it mean a heart moved with emotion because of sin's burden, but a heart ready to part with sin. How can any man be saved if he has not reached that point?

John Fulton, a saloon keeper of New York, became so burdened for his sins in the middle of the night, having heard a strange voice warning him of his doom, that he promised the Lord, if his life should be sperG e.. Lord, if his life should be spared, that he would serve Christ all his days. The next morning Satan was on hand to taunt him and get him to reconsider his decision. So real, however, had been his repentance that he answered the devil by closing up his fashionable saloon and hotel, and poured into the gutters his large stock of liquors, rather than sell his stuff to do mischief elsewhere. For many years John Fulton has preached Christ and won hundreds. It is a real repentance of this kind that we need to see in the Church today.

Chicago Sea Scouts Sail North on Borden Boat

John Borden's yacht Northern Light has sailed from [illegible] to gather material for the Field museum of Chicago. Its crew includes eight picked sea scouts from Chicago, who are seen above being welcomed to San Francisco by local boy scouts.

BAPTIST CHURCH FAVORS ANTI-EVOLUTION BILL

The Baptist Church of St. Cloud has gone on record in favor of the Anti-Evolution bill now pending in the state legislature. Many members of the church signed a petition to be forwarded to our local representative, Hon. C. W. Bruns, according to a letter to Mr. Bruns from Rev. Bert Atchison, which follows:

May 9, 1927

Hon. C. W. Bruns,
Tallahassee, Fla.
Dear Sir:-

At the regular meeting of the Baptist Church last Sunday morning, our Church went on record in favor of the "Anti-Evolution" bill that is before the State Legislature, the vote was unanimous and a number of those present expressed themselves individually endorsing the bill and hoping that you use your influence and vote in full support of the same.

I understand that other churches are taking the matter up also, and a number of petitions are being circulated among the people for personal signatures, and so far, I have not heard of a single person that has refused to sign the petition, all expressing the desire that you will use your influence to the very limit in getting the bill through.

Hoping that this will meet with your hearty approval as I am sure that it meets with the approval of the great majority of the people that you represent, I remain.

Sincerely yours,
Bert Atchison

Every child who has ever been the guest of a certain New York hotel is the yearly recipient of a birthday cake from the hotel's chef. As a builder of future business, this plan, according to the hotel executives, is without parallel.

ASHTON COLORED SCHOOL CLOSED ON MAY THE SIXTH

The Ashton graded school closed a very successful term May 6th under the management of Mrs. Parlister H. Davis, principal.

The commencement exercises were well attended each of the three nights by the leading colored and white people of Narcoossee, St. Cloud and other points and proved to be the best in the history of the school.

On Friday night the program was as follows:

Singing by choir.
Prayer by Rev. Wm. Short.
Chant, choir.
Scripture lesson, Rev. C. L. Colding.
Singing, choir.
Essay, "An Angel in the Stone," Miss Effie Davis.
Solo, Mrs. Iva Green.
Essay and valedictory, "Uplift of Colored Womanhood," Miss Rebecca McCloud.
Jubilee singing, choir.
Commencement address, Rev. S. G. Baker of Orlando.
Singing, choir.
Presentation of diplomas, Hon. Sam Brammar, county superintendent of public instruction.
Presentation of tokens.
Class song.
Offering.
Remarks by Mr. A. S. McKay (white) and friends and patrons.
Singing, choir.
Benediction.

Words can not be found to congratulate Rev. S. G. Baker and Supt. Sam Brammar for the forceful manner in which they stressed the essentials of a higher education.

Class color, gold and green.
Class flower, carnation.
Class motto, "Lift as you climb."

REVIVAL FOR COLORED FOLKS CLOSED SUNDAY AT HOLOPAW

A revival was held at the St. Mary's Baptist church beginning Monday, May 2, and closing Sunday. Twenty new members were added to the church. Rev. J. Williams conducted the services.

LOWERING THE OCEAN 600 FEET WOULD BE VERY INTERTESING

"Lower the surface of the ocean 600 feet and you would transform the geography of the earth. Asia and North America would be united by a strip of land some 1,500 miles wide; the Dutch East Indies and Borneo would be tied to the continent of Asia; New Guinea would be a part of Australia; the North Sea would be only a narrow gulf off the point of Norway; Ireland and England would be one and a part of continential Europe; a traveler could go dry shod from Good Hope to Cape Horn via London, eBrlin, Bagdad, Bombay, Pekin, Tokyo, Sitka, San Francisco, Washington, and Buenos Aires."—Geographic Magazine.

Go to church, to community picnics and rallies and help build a good community. You may have some good neighbors and don't know it.

The One Exception

"But surely," Jones urged, "seeing is believing?"

"Not necessarily," replied Johnson. "For instance, I see you every day."

In my absence during the summer months, beginning with May 1st, Miss Anna M. Hoppe, 305 South Jersey Ave., or P. O. Box 296, will attend to my insurance, renewals, new business, or put on vacancy permits for anyone going away, or attend to losses reported to her.

Your troubles will not "grow" if you quit telling them to others.

The man who always has an ax to grind—seldom if ever makes the chips fly.

About the only way we can make other folks come up to our expectations is to measure them with the golden rule.

Dempsey has announced he is ready to fight again. Which can be either good news or bad news for Mrs. Dempsey—if you know what we mean.

It is said that woman has no sense of humor;—that she cannot take a joke. After looking at some of their husbands—we know differently.

Judge Ben Lindsey, of Denver, says America's modern young folks are the the best ever. Which is a subject for extensive discussion at the dinner table this evening—if you should be looking for a topic.

If federal ownership over the press ever comes to pass in this country it will be as the result of New York newspapers covering its current cheap murder in "a bigger and grander way" than ever before.

The patent office at Washington may be right—that no perpetual motion machine has yet been invented—BUT—how about a flapper trying to keep her shoulder straps on her shoulders? We mean when she wears them at all.

OUR PETITION CRAZE

St. Cloud, Kissimmee, and Osceola county in general, seems to have a mania for petitions, and these are being circulated on every hand and for every purpose. If something comes up that does not meet our personal approval, we get out a petition to have it stopped.

It is a well known fact that we can not please everybody and there is no use trying. Somebody is going to be disappointed. Kissimmee has had petitions to recall some of her city commissioners; St. Cloud has had petitions for and against the paving of certain streets; we have had petitions to allow fishing on our lakes; we have had petitions for and against the "evolution" question; and the latest that has come to our knowledge is a petition against the proposed court of criminal record in Osceola county.

With reference to the latter question, anyone that is familiar with conditions in the circuit court the past few terms, can readily see the need of some drastic changes being made, for the court calendar is way behind with its work. Some are inclined to blame the county commissioners for approving the establishment of a court of criminal record in this county. The commissioners were merely acting upon the recommendation of the Grand Jury, which asked that some means of relief be provided to speed up the work of the court, and it has also been approved by Judge Smith of the circuit court, State's Attorney R. F. McGuire, Attorneys Ellis F. Davis, Pat Johnston, W. J. Steed, the Kiwanis Club of Kissimmee, and other organizations.

The main trouble in all of this is that those who sign these petitions do so without giving the matter any investigation. We know of one party in St. Cloud who made the statement recently, that he "signed every petition that came along." It has gotten to be a habit with us, and if we would only take a little time and consider the matter, we might see it from an altogether different light.

We are too careless, and oftentimes take the word of the person circulating the petition that it is "all right" and sign without even looking it over. Then, if we sign away our rights, we complain. And then, too, more often than otherwise, the person carrying the petition doesn't know what "it's all about."

If, in the future, when we are asked to sign some petition, we will just pause a moment, ask some questions, consider it from every angle, and then, if we don't fully understand the matter wait until we are better informed, this mania for petitions will soon pass. It is up to each individual to decide whether or not the privilege of the petition shall continue to be abused or not.

ST. CLOUD IS PROGRESSING

A lot of favorable comment is being heard around about the way St. Cloud is progressing. Contractors from all over the state have been in to look over the fine concrete streets which have been built, and the cement companies have brought delegations to show what can be done.

When the question of the improvement of New York avenue came up, it was hoped that the whole street, from Eighth to the lake could be laid with concrete, and the brick utilized in some other place where it would do some good.

The commission decided to re-lay the brick on Seventh and Eighth streets from Indiana to Ohio avenue, and the contractor is now at work grading for the pavement.

This means a great deal to that part of the city, and the property owners have secured improvements at a very small cost, as the material for the street itself was right here on hand.

The amount which will be allowed for the brick has not yet been determined, and can not be until the work is completed.

When our friends come back next winter they will see that their faith in St. Cloud has been justly placed, and that they are going ahead in a sensible constructive manner.

CARELESS FIRES EXPENSIVE

Because someone carelessly set a grass fire near the lake front last Saturday afternoon, it was necessary for the Fire Department to turn out and spend most of Saturday afternoon, all of Sunday, and a few hours Monday, putting out the fire which was burning the rich muck soil.

Saturday night the chemical truck was used twice before the general alarm was turned in, and then it was necessary to throw thousands of gallons of water before the fire could be put out.

Notice was published in the Tribune some time ago that property owners who want to burn off lots or brush piles, must receive permission from the city hall, just to avoid the very thing which has now happened.

We have a very good fire department here, and the boys all turn out in very short time, and the pay they receive is very nominal for the time which they must lose while out on call. The equipment which the city now has will soon give a substantial reduction in insurance rates, so that they can and do render more efficient service than ever before. So during these dry times especial care is asked to avoid fires, which are going to damage property in one way or another.

MISSISSIPPI LOSS

As this is written the crest of the flood in the Mississippi valley has been passed and in a few weeks all of the ruin will be exposed to human eye. What the loss in millions of dollars actually has been will never be correctly estimated, no matter how high the figure may be placed.

Now what?

Are you going to have talk, talk, talk and finally a compromise—with repairs to dikes, building a few new ones—and eventually again "the worst flood in history of the Mississippi?"

Let us hope not. Let us hope that the government,—those men who can do things—place the matter in strong hands and work started at once—to make the Mississippi safe for all time.

Leave it to good engineers—despite the cost. If this government had acted one hundred years ago—spending all of the money that has since been spent or lost in floods there would have been no 1927 flood; no loss of millions of dollars; no contribution of ten millions of dollars now for only temporary relief work; no loss of life.

It has been estimated by experienced engineers that at a cost of about $75,000,000 adequate protection could be had. If the cost were thrice that amount and safety were assured, it would be cheap. Whatever the cost, the money should be promptly appropriated.

The administration should start now—have all preliminary surveys and plans mapped out—and be ready to present the proposition to Congress when it meets in December. This newspaper is one that will help make that Congress appropriate the money—and hang before any filibuster or any other Washington complex may interfere.

YOUR BEST FRIEND

Better appreciate your mother before your appreciation of her will be no kindness to her, and the post mortem regrets will be more and more of an agony as the years pass on. Big headstones of polished Aberdeen and the best epitaphs which the family pat together could compose and a garland of whitest roses from the conservatory are often the attempt to atone for the thanks we ought to have uttered in living years and the kind words that would have done more good than all the calla lilies ever piled up on the silent mounds of the cemeteries.—Exchange.

Considering the size of his 1924 majority, there seems to be no reason for Mr. Coolidge's concern about the apathy of the American electorate.

Letters to the Editor

The following letter from F. D. Chase, who left St. Cloud last week for Brighton, Maine, gives a good route from Florida to Maine with a report of the condition of the roads along the way which will prove valuable to others contemplating a vacation trip by auto.

Brighton, Maine,
May 2, 1927.

Editor St. Cloud Tribune:

We have just finished a motor trip from St. Cloud to this place. We left St. Cloud last Wednesday and accomplished the journey in six days, the speedometer registering 2014 miles. We were able to make good time by choosing a route as free as possible from heavy traffic. We came north via Leesburg, Ocala and Lake City—thence to Macon, Ga., through Athens to Anderson, S. C., then to Charlotte, N. C., going to Danville, Va., north to Lynchburg and crossing the mountains to National Bridge, Va. Then by Shenandoah Valley to Harrisburg, across Pennsylvania by Wilkes Barre and Scranton, then to Oneonta, N. Y., Schenectady and Glen Falls, crossing Vermont via Rutland and White River Junction to Laconia, N. H., and by Conway, N. H., to T. R. Trail to Brighton.

The roads for the most part were very good. In Florida barring some fifteen miles south of Leesburg, roads were perfect. In Georgia between Jasper and Macon were several detours, all good in dry weather. Georgia road are all right if dry, but are liable to be heavy in wet weather. North and South Carolina roads are all hard surfaced on the route taken and were in excellent condition. Virginia roads were fairly good, but through the mountains, where wet, were slippery and slow. Pennsylvania and New York roads were mostly good and had many long stretches of perfect concrete pavement. Across northern New Hampshire and Vermont were some bad stretches of sand and gravel roads that are slippery in wet weather.

We had two days of rain out of the six. We had no trouble from congested traffic until we reached Schenectady, N. Y., where we arrived on Sunday afternoon and the roads were filled with processions of cars for many miles. I consider the route chosen is probably the fastest between Maine and Florida as it gives one good roads and little traffic.

Yours truly,
F. D. CHASE.

INTERESTING LETTER FROM MR. Z. BARAGER

The following letter is one of the many interesting ones that are being received by the editor from winter residents who are returning to their summer homes in widely separated sections of the country. They present interesting news and conditions in the various states.

"To the Editor, Tribune:

"Mr. and Mrs. J. L. Stearns and myself left St. Cloud enroute to New York. We stopped over at Andersonville Prison Park, where we were royally entertained. We saw many old bona fide relics made in 1864 and 1865.

"In the prison park is a wonderfull spring of water in a marble enclosure on which is a tablet with the inscription, "On the night of August 12, 1864, during a heavy thunderstorm, a spring appeared on the surface near the line stockade, just at a time when thousands of soldiers were suffering from lack of water. A thunder bolt filled with omnipotent ring, opened the fountain which is called Providence Spring."

"We visited the cemetery where 13,000 prisoners were buried, all having head stones except the unknown dead. Mrs. Elizabeth Turner, one of the pioneer women of the W. R. C., is buried there on the hill near the home.

Z. Barager."

NEWS NOTES

The way some children are raised make us wonder how the world can get better.

What has become of the old fashioned man who drank water out of his hands?

Tell a man good things to his face and he will let you lie about him behind his back.

About all that naval disarmament accomplished was to provide funds for aerial expansions.

Just about the time we write a nice article about the weather man along comes a cold snap.

Startling statistics: The British battle cruiser Hood paid $22,500.50 to pass through the Panama canal.

A new British budget taxes betting; has the government no respect for the ancient rights of race track touts?...

Having investigated everything else Congress, will, no doubt, inquire into the habits of voters by next fall.

Our extra slice of pie this week is rewarded to the newspaper contributor whose copy is always ready on time.

Get a new subscriber to this apostle of information and glow with the knowledge that you have done well by a fellowman.

Our private dictionary: "Fighting For His Rights," an obsolete term; formerly applied to many Americans! (See "Pickings")

To Be, or Not To Be— by Albert T. Reid

GEMS FROM EXCHANGES

Old Stuff!

Poultney (Vt.) paper — (adv.) — WANTED: To buy a good aged honest horse that will weigh around 1500. M. H. Fish & Son.

Sounds Suspicious

Reading, (Pa.) Eagle — Francis Beisinger had the left nail removed from the middle finger of his left hand at the Homeopathic hospital. His finger was caught in a door while he was attending a wedding reception.

They Come Back for More in Chicago

Princeton (Ky.) Leader—The other victims of the robbers were Charles O'Brandon, gang leader, who was assinated in Chicago two years ago, and Mrs. O'Brandon and their chauffeur.

"So's Your Aunt Teak!"

Richmond (Ind.) Palladium and Sun-Telegram — (adv.) — WE BUY AND SELL ANTIQUES and old style furniture. Something new on hand always. Louis Fahlsing, 448 S 16.

Hard On the Old Folks

Harrisburg (Va.) News-Record—The law provides that any dog, whether wearing a tag or not, found killing injuring or chasing sheep, or any person finding a dog worrying sheep CAN BE KILLED ON SIGHT.

Why Beller!

Reidsville (N. C.) Review—(adv.) —LOST: Between Broadway Inn and Cartex factory ladies' umbrella with Beller Smith inside. Reward if returned to Zella Smith, South Scales street.

Christmas Was Disappointing to Some

Pittsburgh (Pa.) Press—(adv.)—SEAL coat, size 38, cost $10, sell for $50; never worn. Montrose 5003.

Two Pants; Two Prices

Reading (Pa.) Times—(adv.)—Men's Leather Pants $2.29.

Congratulations, Don!

Saline (Mich.) Observer — Donald Burkhart, who went to Ann Arbor early last week for an x-ray examination, was much pleased to find that his trouble was from ulcers in the stomach.

Liquid Notes

Minneapolis (Minn.) Journal — Workmen have been erecting a belfry at the north end of the church, and in this the bell will be soused.

Weeds

Chicago (Ill.) Tribune—Both men are well to do tobacco plants.

Hot Water Assured

Canajoharie (N. Y.) Courier—(adv.) FOR SALE: Sterling cook stove, with water front, harness and neck yokes. Pearl V. Perry.

All Modern Improvements

Omaha (Nebr.) Bee— (adv.) — LADY, high standing, large irrigated acreage western slope, wants business partner, ready cash. Address X-105.

Ready-Cut Head

Bill—What business are you now in, Jack?

Jack—I'm in the lumber business.

Bill—Well, you have got a good head for lumber.

So Personal

Teacher — "Why, every time I breathe a Chinaman dies?"

Voice from the rear—"Why don't you try cloves?"

No Soitcher

"You didn't tell me this watch wouldn't go when I bought it."

"Well, the manufacturer didn't say anything about it, so I thought it was a secret."

OFFICIAL MINUTES OF CITY COMMISSION HELD ON MONDAY EVENING, MAY NINETH

Regular meeting of the city commission was held May 9th at 7:30 p. m. with the following officials present: Mayor Commissioner C. P. Parker, Commissioner G. C. Outlaw, Commissioner H. S. Dawley, City Manager Geo. M. Mitchell.

City manager stated that the minutes were in Orlando as Mr. Garrett had called for them and asked that the reading of the minutes be dispensed with until the next regular meeting, which was done upon motion of Com. Outlaw seconded by Com. Dawley. Roll call: all yes.

Following bills read, approved and ordered paid upon motion of Com. Outlaw, seconded by Comm. Dawley. Roll call: all yes.

Miss McGill	$2.50
Miss Hannagan	10.00
Western Union	5.47
Fire Dept. (3 fires)	52.50
J. D. Harris	5.00
Florida Tel. Corp.	21.60
Florida Tel. Corp.	2.70
Florida Tel. Corp.	2.50
Also one day's pay for the firemen who spent May 8th at the fire.	24.00

Discussion of the auditing of freight bills, and motion was made by Com. Outlaw seconded by Comm. Dawley that the City Manager be and is hereby authorized to sign a one year's contract to the Equitable Freight Adjustment Company to audit the freight bills. Roll call: all yes.

Upon request of the Cemetery Association the following resolution was adopted upon motion of Comm. Parker, seconded by Comm. Dawley: roll call: all yes.

"Be it resolved by the city commission of the city of St. Cloud, Florida, that there will not be any more cement copings allowed around any of the lots in the cemetery, and that there will not be allowed any more flat top cement coverings on the graves. This the 9th day of May, A. D. 1927, effective as of this day."

City Manager called a special meeting for 11 o'clock on May 10th, to discuss the matter of finances.

Suggested set of rules for the Tourist Park read and were left for action at the meeting to be held May 10th.

Motion made by Comm. Outlaw seconded by Comm. Dawley that the resolution be adopted reducing the width of the paving on 7th and 8th streets from Ohio to Indiana Avenues, to avoid cutting down trees along the park, from 30 feet to 28 feet. Roll call: all yes.

"Be it resolved by the city commission of the city of St. Cloud, Florida, that, to avoid cutting down any of the shade trees on 7th and 8th streets from Indiana Avenue to Ohio Avenue, that the width of the paving be reduced to 28 feet. This the 9th day of May, A. D. 1927."

City Manager filed letter from John Otter.

Mr. Trickle, city engineer, submitted tentative estimates on several widths and thicknesses of paving for 10th street, and general discussion by those present followed. After which the engineer was instructed to prepare estimates on the penetration method according to the state specifications, and another meeting was called for 7:30 p. m. on May 18th, 1927.

Mr. Pledger appeared for Dr. Pope, regarding the assessment on his lots on New York Avenue between 8th and 9th streets. Motion was made by Comm. Outlaw seconded by Comm. Parker to defer action until later in the week to give time to investigate the matter and that Mr. Pledger be advised of the action taken. Roll call: all yes.

City Manager stated that he had been indirectly advised that the City Assessor wanted an extension of time to complete the assessing, and motion was made by Comm. Outlaw seconded by Comm. Dawley that the time be extended thirty days. Roll call: all yes.

Motion made by Comm. Outlaw seconded by Comm. Parker that the City Manager be and he is hereby instructed to draw an ordinance regarding the height of airplane flying over the city and prohibiting stunt flying over the city.

Roll call: all yes.

Discussion of Florida Avenue Parking and the matter was left to the jurisdiction of the city manager as provided according to the charter.

City manager presented requisition for 500 feet of fire hose, badges and coats for the fire department, and it was decided to get along for awhile without this material, as due to conditions, it did not seem best to order at this time.

Motion made, seconded and carried to adjourn.

C. P. Parker,
Mayor-Commissioner.

Attest: Geo. M. Mitchell, City Manager

Dr. Frank Crane Says

You Should Make a Will

The Mercantile Trust Company of Baltimore has issued a little booklet called "Studies in Wills."

This book is not for sale, but is distributed among interested parties.

The making of a will is a very old idea. It is the effort of a man to impose his desires upon his followers after he is dead.

Sir Rider Haggard once wrote a story called "Mr. Meeson's Will." In it the young heroine who was shipwrecked on a desert island allowed a will to be tattooed across her back on the skin in the absence of paper or parchment. When she returned to civilization she learned that the will required the filing of the original document in court. Touched by the spectacle of beauty in distress, however, the registrar allowed a photograph of the will to be filed and the girl went happily away.

Ptolemy the 13th of Egypt borrowed a lot of money and in order to protect his creditors made a will appointing the Roman Republic as his heir, thus bringing his dynasty to a close with his own decease.

When he died the Romans acknowledged the genuineness of the will, but contented themselves with "seizing, by virtue of the document, as much of the private fortune of the testator as they could lay hands on."

The law in regard to wills is pretty thoroughly fixed, but it takes a lawyer to understand it.

It behooves every one to consult an attorney and make his will and make it law proof. It is a good plan to name a Trust Company as one's executor because such a company is experienced and cannot die. This plan avoids much unnecessary litigation and saves the legatee from danger through unscrupulous stock promoters.

Every one should make a will and put his property in the hands of a Trust Company to administer. Then there would be less unnecessary litigation in regard to various testaments.

LOCAL VISITING SOCIAL

St. Cloudlets

COMING MEMORIAL GOING

S. W. Porter, real estate, insurance.

Mrs. Mark Stillman is visiting friends in Sarasota.

J. M. Dewey, of Tampa, was in the city on business, Wednesday.

H. & S. Grocery for good service. 40-tf

W. S. Leach left Monday for his summer home in Cassopolis, Mich.

R. R. Townsend, of Palm City, Fla., is visiting his aunt, Mrs. E. J. Sperry.

L. C. Riddle, Dentist, Conn Building. Appointments made.

W. H. Russell left Wednesday for a visit with his son at Bronxville, N. Y.

Thos. Handley left Monday for his summer home in Rockville Center, N. Y.

Percy's Barber Shop and Beauty Parlor, Hunter Arms Building. 35tf

O. M. Thurber and son, James, left Tuesday by auto for Minneapolis, Minn.

Miss Marie Casey, of Miami, spent the week end with her mother, Mrs. Mary Laurahs.

A $1.00 Sale, May 14 and 16th at Mrs. Grimm's. 11c-37

Beverly Mann, who is attending college in Gainesville, spent the week end with friends.

Henry Lincks, who has spent the winter here, left Friday for his home in Newark, N. Y.

H. & S. Grocery and Market for fresh western meats. 40-tf

John Kelly has returned to again make Holopaw his home.

Mr. and Mrs. W. H. Greer spent Sunday in our city visiting their son A. L. Greer.

The pieture "The Mid-Night Flyer" was shown here Friday night to large house.

Miss Rose McElroy entertained the young people on Friday night in honor of Annie and Erlene Jones, who left Tuesday for Mississippi. Miss Rose is an ideal hostess and every one reported a wonderful time.

Rev. R. H. Booth and wife are visiting in Sanford this week.

M. A. Cook was host to his Sunday school class on Saturday afternoon, going over to the beach at Melbourne. Every one reported a real pleasant time, and the "eats" delicious.

Mr. and Mrs. W. M. Jones and children left Tuesday for Mississippi to make their home. We regret to lose this good family.

Mr.and Mrs. Percy Batten and son, of Kenansville, were in our town on Saturday.

Mrs. W. O. Lee entertained her Sunday school class on Saturday afternoon with a farewell party for Ruth and Ruby Jones who were leaving. All the youngsters report a wonderful time.

We are all so glad of the improved condition of Britton Spann in Mississippi.

Society

TALENTED ENTERTAINER GIVES RECITAL

Probably one of the most outstanding events of the week was the entertainment given Friday evening at the high school auditorium by Miss Jane Goude, of Los Angeles, Calif. This entertainment was given under the auspices of the Parent-Teachers Association, and included monologues, sketches, short stories, and a one act play "The Florist Shop."

Miss Goude delighted her audience and proved herself to be an entertainer of unusual ability, possessing a charming and gracious manner which drew from her audience repeated applause of approval and appreciation.

Miss Goude is well known in chautauqua circles, having spent a number of years with the Redpath, and is now on her way to join the Swarthmore Bureau in Philadelphia, Pa., which starts on its circuit June 1. During her brief stay in St. Cloud she won a place in the hearts of her hearers that will assure her a most cordial welcome should she choose to return for a future engagement.

AFTERNOON PICNIC HONORS GUESTS

A very enjoyable affair was given Wednesday at the club house in the city park by Mrs. Jennie Tucker, in honor of her daughter and family, and Mr. and Mrs. Fletcher and children, of Miami. It was in the form of a neighborhood picnic.

The invited guests were Mrs. Emma Raymond, Mrs. Eleanor Clark, Miss Alma Thompson, Mr. and Mrs. Robert Johns and daughter, Wilma, Mr. and Mrs. Harry Fletcher and children, Mr. Bacia Grebe, Mrs. Emma E. Smith and daughter, Ruth Smith, Mrs. Fentmore, Miss Dora Thom, Dr. Kelser, Dr. Sude, Miss Irene Dilley, Mrs. E. H. Dilley, Mr. and Mrs. L. L. Kibbey, Mr. and Mrs. J. R. Fuller, Mr. and Mrs. Wm. Abbott, Mrs. May Ellis, Mrs. Wm. Phipps, Mr. and Mrs. James Bullard, Mrs. Lora Long, Mrs. Frances Riley, Mr. and Mrs. Hugh Perkins, Miss Mae E. Loomis, Mrs. Wm. Wooding, Miss Mamie Blessing, Mrs. R. Booth, Orin Thurber and Mrs. Jennie Tucker.

PRENTIS-WOODS WEDDING AT WASHINGTON, D. C.

A pretty wedding took place on Wednesday afternoon, May 4th, at four o'clock, when Miss Ethel Muriel Prentis, youngest daughter of Mrs. J. W. Prentis, became the bride of Mr. Maryland R. Woods, son of Mr. and Mrs. Edward M. Woods, of Glendale, Maryland.

The wedding occurred at "The Evangeline," 1330 L Street N. W., Washington, D. C., where for several years the bride's mother has been dietitian. The ceremony was performed by Rev. O. R. Balls, pastor of the Wisconsin Avenue Baptist Church, who some years ago was the bride's pastor at Kissimmee, Florida.

The parlors of the hotel were most attractive with spring flowers. The marriage vows were solemnized before an improvised altar of palms and hydrangea. The wedding march was played by Miss Edith Irvings.

The bride was given in marriage by her mother. Mrs. J. W. Prentis. She wore a white satin gown made in bouffant style. Her veil was held closely by orange blossoms, and her bouquet was brides roses.

Attending the bride was the groom's sister, Miss Frances Ella Woods, wearing a modish turquoise blue frock. Her bouquet was pink tea roses. The petite ringbearer, Harriotte Borgne Woods, also a sister of the groom, in a dainty frock of pink, carried the rings on a white satin tray. The double ring service was used.

After the ceremony a buffet lunch was served to the many guests, and the large wedding cake was cut by the bride.

Mrs. Woods was a former resident of Kissimmee and St. Cloud, Florida, and is a sister of Mrs. A. E. Cowger, of St. Cloud, J. C. Prentis and W. R. Prentis of Kissimmee. She is a graduate of the Florida State College for Women, Tallahassee. For several years she has been an instructor in the United States Veterans Hospital at Otteen, N. C. The groom is assistant engineer in the same institution.

After the reception Mr. and Mrs. Woods left by automobile for a wedding trip. They will make their home for the present at Gravemont, N. C.

ENTERTAINS BRIDGE CLUB

Mrs. Roy Lackey entertained at bridge on Thursday afternoon, May 5, at her home on the corner of Ohio Avenue and Eleventh Street. A most enjoyable time was spent and at the close of the game delicious refreshments wose served.

The guests present were: Mrs. R. L. Steen, Mrs. O. E. Ward, Mrs. Sam Brammer, Mrs. H. J. Burchfield, Mrs. Wm. Dodds, Mrs. Fred Tullis, Mrs. J. B. VanMater, Mrs. J. J. Johnston, Mrs. Annie Dulby, Mrs. P. Sherman and Mrs. Olin.

FAMILY REUNION ON MOTHER'S DAY

Mr. and Mrs. Bert Gessford of Kentucky avenue entertained at their home on Mother's Day with a family reunion and dinner. The guests were: Mr. and Mrs. G. W. Eisedstein, Mr. and Mrs. D. P. Eisedstein, and W. D. Eisedstein, father, mother and brothers of the hostess. The other guests were Miss Myrtilla Beals, of Kissimmee, and her mother of Brunswick, Maine.

AFTERNOON BRIDGE PARTY

Mrs. S. E. Edwards was hostess at a very delightful afternoon bridge at her home on Jersey avenue on Monday of this week. At the conclusion of the games scores were counted and first and consolation prizes awarded the holders of highest and lowest scores, after which delicious refreshments were served. Guests present were Mrs. A. B. Rhoades, Mrs. Sam Brammar, Mrs. H. J. Burchfield, Mrs. Olin, Mrs. S. Barlett, Mrs. J. J. Johnston and Mrs. J. B. VanMater.

SIGNS OF REAL BEAUTIFICATION

If everyone could go up in the airplane and look down on St. Cloud and observe the many lots that are being beautified and kept looking attractive, it might get everyone in the notion of doing his part in making the city one of the most attractive in the state.

Many of the winter folks owning property and houses here keep their premises cleaned up all winter, and make provisions to have them taken care of during the summer. There are a few, however, who do not, just as there are a few year round residents who make no attempt to groom their premises or vacant property from one year to the next. The northerners, who have every reason to forget their property for the summer months, for the most part have caretakers appointed before they leave each spring, and this action is to be highly commended.

Funeral services for Mrs. Sarah K. Swift were conducted from the Eisedstein Bros. Funeral Home at 10:00 o'clock this morning by Dr. E. S. Taylor, pastor of the Christian church. The remains will be shipped to St. Catherine Ontario, Canada, where they will be interred.

PRESBYTERIAN CHURCH

The Presbyterian church was beautifully decorated Sunday in honor of Mothers' Day with red and white gladiolas and roses. Rev. Sierrat, of Mount Verde, occupied the pulpit both morning and evening.

Dr. Wm. Landiss will preach next Sunday morning. At the close of the morning service there will be a congregational meeting and a large attendance is desired.

Mr. and Mrs. Leroy C. Treat left today for their home in Buffalo, N. Y.

SO-CALLED RELIEF FIRM NOT NEEDED IN STATE TRADE BODY SAYS

The attention of the various newspapers and Chambers of Commerce of the state of Florida is being called to the Florida Relief Service, William Willard Howard, manager, maintaining executive offices in Stamford, Connecticut, and at 70 Fifth avenue, Room 1034, New York, and which is said to be seeking the patronage of the public, both through circulars sent to individuals and through articles and letters sent to the daily press.

This service purports to sell manufactured goods of various kinds which it claims are made by women rendered destitute by the Florida hurricane. In its circulars the Florida Relief Service says that great distress exists in Florida, and insists that unless it can give employment to women and sell their products "there will be many cases of actual starvation." The Service also claims to maintain factories in Florida which give employment to these women who would otherwise be destitute.

The Florida State Chamber of Commerce has taken up the matter and has found that there are no women thus employed, or that are dependent on any such work to keep them from "actual starvation" and further is unable to locate any such "factories" in the state. It finds, after careful investigation, that the Service is a commercial organization, "which buys and sells various manufactured commodities and which does not even dedicate its profits, if any, to relief activities." The State Chamber asks that Floridians contribute to Mississippi Relief work through recognized channels, but that they withhold support from the "so-called Florida Relief Service, whose activities are wholly unnecessary in Florida at this time."

CARD OF THANKS

I wish to express my appreciation to the many friends, and especially to Dr. E. S. Taylor, for their kindness and sympathy during the illness and death of my aunt, Mrs. Sarah K. Swift.

Erle Holcombe

Hyde Park, Vermont, claims the United States savings record. Deposits in its single bank show an average of $7,717 for each of the 368 inhabitants of the village.

Paper currency now lasts only about half as long as it did before the war. Experts say this is due mainly to oil and grease soaking into the paper money at automobile service stations.

PRESIDENT HALL OF TOURIST CLUB WRITES

A. W. Hall, president of the Tourist Club, writes the following interesting letter to his St. Cloud friends, telling of his trip to his home in Memphis, N. Y.

"We left St. Cloud on the morning of April 18th, by auto, avoiding the heat of mid-day travel, it being very warm, and took our way to central New York by the Shenandoah valley route. We found the roads fairly good, except some detours near Lynchburg, Va. Here we met flurries of snow for two days travel, and one night of heavy rain. We put on our winter overcoats and were but little inconvenienced by the change in temperature. We were reminded of our youthful recitation of, "The Snow, the Beautiful Snow". But our more mature and sedate experience now said that we preferred the sand of Florida to the glistening crystals flitting about us. We even wondered why the flying birds seemed so eager in their northern flight.

We made the trip in six days, and have now been domiciled in our northern home some two weeks and more, and have sufficient opportunity to calmly view the change in situation. We are consuming the usual amount of coal in keeping the furnace going, and when I have not been busy shaking the furnaces the chills have been busy shaking me. This is the righteous penalty for leaving Florida too soon in the season. In southern New York we encountered snow so dense as to make traveling impracticable. At the date in which we are writing, May 5th, the meadows are green, the trees beginning to leaf, and the hills bleak and bare, frosts nearly every morning, and the weather cold and dry. Another helping of Florida, please, as you seem to have plenty! We have often said, "From May first, until snow flies, New York against the world;" but we are now compelled to advance our calendar at least fifteen days. It may be the case that our stay in Florida has changed us, instead of a change in northern weather conditions; but be that as it may be, Florida for us. Greeting to all our friends."

OSCEOLA REPRESENTATIVE HAS UNUSUAL HOBBY

TALLAHASSEE, May 7.—Representative Bruns, of Osceola county, has an unusual hobby. Mr. Bruns came to Florida some years ago from Cincinnati, settled near Narcoossee and interested in deer as a result of numerous visits to Colorado set about to see what could be done with them in Florida. He launched his experiments eight years ago and since that time his does have produced fifty fawns which have been sold, given away or have grown to maturity at his home.

Just now Mr. Bruns is considering importing a pair of black-tail deer from the northwest to determine whether they will thrive in this state. He declares there is every reason to believe a highly profitable industry could be developed if Floridians would undertake to raise deer for the market. In the west, where the industry already is on a farm footing, venison brings the producer an average of $1 per pound.

The deer, according to Mr. Bruns, is one of the easiest and most economical of all animals to raise. He will thrive where even a goat finds it difficult to eke out a living and, he asserts, will eat things at which the most unprincipled goat will turn up his nose.—Orlando Sunday Reporter-Star.

AGRICULTURAL COLLEGE SPECIALISTS ATTENDING HORTICULTURAL MEETING

Gainesville, Fla.—Specialists of the Experiment Station, Extension Division, College of Agriculture, and State Plant Board will attend the meeting of the State Horticultural Society in Bradenton this week, May 12-15, and most of them will take part on the program.

The list of those who are attending includes Dr. Wilmon Newell, dean of the College, director of the Experiment Station and Agricultural Extension Division, and commissioner of the State Plant Board, Dr. A. F. Camp, associate horticulturist, Harold Mowry, assistant horticulturist, M. R. Ensign, truck horticulturist, G. H. Blackmon, pecan culturist, J. R. Watson, entomologist, Dr. O. F. Burger, plant pathologist, and W. E. Stokes, agronomist, all of the Experiment Station.

Prof. E. L. Lord of the College and E. F. DeBusk of the Agricultural Extension Division are in attendance. Dr. E. W. Berger, entomologist, J. C. Goodwin, nursery inspector, and M. R. Brown, grove inspector, are attending from the State Plant Board.

MRS. SARAH K. SWIFT

Mrs. Sarah K. Swift passed away Saturday, May 7, at her home on North Michigan avenue at the age of 81 years. Mrs. Swift has been a resident of St. Cloud for the past nine years where she lived a quiet retired life. Funeral arrangements await the arrival of her brother from St. Catherines, Ontario, Canada, where the remains will be shipped.

NOTICE

Notice is hereby given, that, effective as of May 12th, A. D. 1927, the drive on the east side of Florida avenue is hereby designated as a one way drive, for all North bound traffic, and the drive on the west side is hereby designated as a One Way Drive for all South bound traffic.

It is further ordered that parking will be prohibited on Florida avenue after mid-night, and that all cars parked up to that time must have lights in accordance with the City Ordinances.

By order of the Police Department.
GEORGE M. MITCHELL,
City Manager.

ORLANDO WINS FINAL SHOOT FOR THE CORRELL TROPHY

St. Cloud archers went down in defeat at the hand of the Orlando Bowmen. This cup has been in competition for nearly a year and has given much enjoyment to the two clubs. There have been five shoots for it, of which the Orlando team has won three and the Saint Cloud team two. The shooting Saturday showed marked improvement over the earlier shoots and the score which Mr. Dunn made was truly that of an expert.

In the first shoot on August 12th, 1926 Mr. Dunn's score was the lowest made in the tournament, being 15 hits for 49 points, a total of 64; and each shoot he has steadily improved and in Saturday's shoot his score was not only high for this tournament but the highest score made by any one on the Correll cup. The score was 40 hits for 260 points, a total of 300.

In the five shoots for this trophy the high individual score was made by a St. Cloud Archer in all the shoots but one. Not only Mr. Dunn's scores have shown improvement but all the archers have been shooting better each tournament.

Mr. Becker's score of August 12th was 35 hits for 158 points, a total of 192, which was the high score made in the first tournament, but considerably lower than his score of 33 hits for 171 points, total of 204, which was the low score made in the last tournament.

Saturday afternoon, May 14th, the St. Cloud Archers will journey to Orlando to shoot for the St. Cloud Archers trophy. This will be the fourth shoot. To date St. Cloud has won two legs on this trophy and Orlando one.

WINNING CLUB BOYS AND GIRLS TO HAVE JUNE SHORT COURSES

GAINESVILLE, Fla.—Short courses for Florida club boys and girls will be held at Gainesville and Tallahassee during the first 10 days of June, according to an announcement by the Agricultural Extension Division. The one for club boys will be held at the University of Florida, May 30-June 4, and the one for girls, at the State College for Women, June 3-10.

R. W. Black, state boys' club agent, will have charge of the Boys' Club Short Course, and will be assisted by district agents and other members of the Agricultural Extension Division and College of Agriculture. Course in subjects of interest to the boys will be given throughout the week. Club boys who desire to do so will be permitted to attend graduation exercises at the University, May 31. It is expected that 125 boys, winners of various club projects in their counties, will be in attendance.

Miss Flavia Gleason, state home demonstration agent, and members of her department will be in charge of the Girls' Clubs Short Course. Instruction and entertainment will feature the week. An attendance of 400 girls who have won club contests in the different counties, several local leaders and home demonstration agents, is expected.

Commencement dates at both the University and the State College have been advanced a week by the State Board of Control, so that better arrangements can be made for caring for the club members.

BILLS PROPOSED TO TAX AUTO LUBRICATING OIL

TALLAHASSEE, May 5.—Heretofore various measures designed to raise more money for schools have been aimed solely at the automobile owner, the proponents seeking to produce the funds by dipping into the gasoline tax, increasing it or increasing the registration fees. Such measures would affect all motorists as a class.

Two bills introduced in the House and Senate Wendesday not only would strike again at the motorists but would hit heavily the owner of the flivver. It imposes a tax of four cents per quart on lubricating oil and the motorist knows that one lowly flivver will use more lubricating oil in a week than larger cars will in a month. Florida's country sections, where the flivver predominates, would be the largest proportionate contributors if such a tax were imposed, assert opponents of the measure.

In addition to motorists, industries also would be affected by this measure for it applies to lubricants of every character, even unto castor oil utilized by airplanes.

The proponents of this tax were Representatives Harper and Vining, of Volusia county, with House Bill No. 542, and Senator Putnam, also of Volusia, with Senate Bill No. 285.

It Fools Them

Every one I met today said they liked my new suit. That's a joke on them because it's an old one I had cleaned and pressed.

St. Cloud Pressing Shop

LETTER URGES DEPOSITORS TO SIGN PLEDGES, SAYING FEW HOLD UP MANY

The Orlando Reporter-Star is in receipt of a letter from Mrs. C. Albert, a depositor in the closed Bank of Orange, addressed to the depositors of that bank and calling upon those who have not signed the time deposit pledges to make that agreement immediately.

Mrs. Albert, in her letter, points out that every day that the bank remains closed on account of the lack of agreeing depositors means a hardship to those with money in the bank and a detriment to the city. She calls attention to the fact that many merchants of the city have agreed to accept the certificates of the Orlando Commercial bank, which organization will succeed the Bank of Orange and that depositors under this method can pledge their money to the bank on time payments and still make purchases.

Satisfactory Progress

At the same time the Reporter-Star inquired of the officials of the Orlando Commercial bank when they expected to open the institution for business. The official declined to make a direct statement for publication, but it was understood through members of the board of directors of the Bank of Orange that the bank was making satisfactory organization progress with the exception of the reluctance of a few of the depositors to sign the time deposit pledge.

They emphasized the fact that when the bank did open there would be no preferred depositors. According to the directors, much depends on the rapidity with which the depositors sign the agreement and the sooner these signatures have been secured the quicker will the Orlando Commercial bank open with the sound assets of the Bank of Orange under its control.

Letter to Depositors

Following is the letter from Mrs. Albert, addressed to the depositors, through the Reporter-Star:

It is rather hard on the loyal citizens who have cooperated with the Bank of Orange in signing the depositors' cards to be handicapped by the few who have neglected to do this. Every day that this bank remains closed works a hardship on the depositors and not only this, but is a detriment to our city.

As soon as the bank opens we will get at least a portion of our deposits. Many are waiting for this money to pay long standing bills. Many merchants are willing to accept the depositors' certificates in lieu of checks. Everyone is talking about money being tight and times being hard, then why not loosen a good portion of it by letting the Bank of Orange open?

Come on, you doubters, do your duty by your community. Help yourself by helping others who have done our best for the common good. Sign the cards.

(Signed) MRS. C. ALBERT.

FLASHES OF FLORIDA FACTS

By MOSES FOLSOM

Bond Sales

During 1926 Florida lead all of the states of the South in the sale of bonds, the total being $123,598,000. Of these, seventy-nine were for schools, to the value of $20,771,000; 112 issues involving $068,318,000 for various public improvements, and ninety-eight issues for $40,132,700 for roads.

"It's Up to You"

DeLand News drop gently into verse about the fellow who won't quit:

"No one is beat till he quits,
No one is through till he stops;
No matter how hard failure hits,
No matter how often he drops,
A fellow's not down till he lies
In the dust and refuses to rise.
Fate may slam and bang him around
And batter his frame till he's sore,
But she never can say that he's down
While he hobs up serenely for more."

Growing

Howard Sharp of the Everglades News at Canal Point, Palm Beach county, says that "the extension of the Florida East Coast railroad from Pahokee to the town of Chosen on the Hillsborough canal in Palm Beach county, a distance of eleven miles, with construction of a hard road of equal length has led to 700 acres of land being cleared and planted to vegetables. As it requires the labor of an entire family to gather the produce from ten acres of this custard apple land, population has been increased by at least 350 persons. This addition to cultivated area and increase in population has been accomplished without participation by any real estate men or publicity agency. All this country needs is drainage and roads."

Chemistry

The Straw Products Company of St. Paul, Minn., of which G. H. Harrison is president, is making a large number of by-products from straw, including oil, carbon for paints and other things, a ton of straw making, it is said, some $250 worth of products. Sugarcane in Florida will some day do the same wonders, besides making building board. The chemist is the real wonder worker of today. He is regularly discovering what is hidden away in every material thing. It is gratifying to know that the Florida State university has a department of chemistry of which any state can be proud.

What's the Matter?

The present slowing down of business is said to be largely a state of mind. The last report of the federal trade commission estimates American wealth at $353,055,952,000, in which Florida's share was $2,440,401,000. The wealth is all here, and so is the soil, and the climate, and the water and fish. We still have our heads and hands. The sun shines and the rains fall, and the flowers bloom. Last year Florida bought more automobiles than any other state, per capita. Florida has a surplus of over $15,000,000 in the state treasury and there is no state debt. The general health of the people is good and no famine or epidemic threatens us. The motion picture houses are regularly crowded and new show houses are being built. And the radio still brings melody and speech from distant cities.

We only need to look back to see how well off we are. Our first Continental Congress had hard work to borrow $30,000 to help carry on the Revolutionary war. In 1800 laborers engaged in digging a canal in Pennsylvania received $5 a month and boarded themselves. During the war of 1812-14 money was so scarce that many communities printed paper money to help out. I recall seeing at Alexandria, Va., samples of paper money of value as low as one cent, and each piece of paper bore the names of two city officials to make it good. The old days were hard ones. The trouble now is people have more things than they can enjoy.

The Future

Horace Dunbar, director of the California soil improvement committee, in an address before the recent convention at Fullerton, of fruit growers of that state, said:

"Thoughtful men are pondering the fate of the California orange industry when Florida and other sections favored by freight differentials are producing oranges on new lands far more extensive than areas now planted and producing."

'Our Furry Friends'

This is the title of a booklet devoted to the conservation of our fur-bearing animals and a wide circulation is urged by the United States bureau of biology. The booklet aims to teach the youth of the country that fur animals represent a great natural resource, something to be guarded and preserved, so that the supply will always be maintained to the profit, pleasure and comfort of the American people. It is illustrated in color with drawing of the chief fur bearers of the country—the muskrat, skunk, raccoon, opossum, fox, marten, mink, beaver and otter. Copies may be had free from the National Association of the Fur Industry, New York city.

The Great Work Goes On

John W. Martin in a message to the legislature announced that he had secured a loan in New York of $20,000,000 to continue drainage operations in the Everglades. The message included a valuable and concise history of the great work.

Cotton Goods

The practical wearing qualities and attractive appearance of the cotton fabrics available this year make them desirable for innumerable household purposes. For draperies, curtains, chair covers, spreads, etc., many beautiful and durable styles are to be had. Cotton is a great American product. Help home industry.

Florida Is All Right

In a talk the other day to the Jacksonville Real Estate Board J. J. Logan, a well known citizen of the Gate City, said among other things:

"For each million dollars in Florida banks two years ago, there is now $1,670,000. No state in the Union has made such a remarkable gain in bank deposits in two years. This isn't boom money. It isn't 'binder boy' money. That is already gone. This is money that you have a chance to get. If you don't get it don't blame the banker—blame yourself."

Mary A. Stennis, nutrition specialist of the Women's college at Tallahassee says with the coming of spring everyone should use more milk and eggs and vegetables and less meat for food.

Persons who shoot upland plover any time during the year are liable to arrest and trial in a United States court.

Department bulletin No. 1464-D entitled Market Classes and Grades of Cattle is sent free to interested persons by the United States Department of Agriculture, Washington, D. C.

"Annuals and Perennials for Florida" is the name of a booklet filled with information gathered by the garden facts committee of the Garden club of Jacksonville. It would be hard to get more real stuff in the same space. Write to Mrs. John A. Ferguson, Orange Park, Florida, for copies.

The sixth annual Florida state interscholastic baseball championships will be played at Tinker Field, Orlando, May 19-21, under auspices of Rollins college of Winter Park.

Flies and mosquitoes are annoying if not dangerous. They are most abundant in the "good old summer time." Screen them out of the house. Flies breed in filth and mosquitoes in tubs, kegs, barrels or anything able to hold water.

It cost practically as much to produce a scrub steer, horse, cow, hog or sheep as it does to produce a pure-bred animal; but when it comes to marketing it or the products from it the returns from the scrub are very much less.

People who have deeds that have never been entered on record should know that unrecorded deeds become an element of risk.

There are now ten corporations in the United States with assets in excess of a billion dollars each.

Every farm in Florida, and for that matter in America, should have at least a few bushes or vines of small fruits and berries. There is no farming locality where some kinds cannot be grown.

This is the migratory season for birds, some varieties of which make annual trips of thousands of miles. Many theories have been advanced why birds make these long journeys, and as to their sense of direction.

Major Wm. Mickler, the last surviving member of the legislature of 1861 when Florida seceded from the Union, died in Jacksonville, April 26, aged 90 years. A good man gone to his long home.

The latest style of trousers for sporty boys have stripes running around instead of perpendicular.

Last year Canada bought $650,000,000 worth of goods from the United States, or 60 per cent of her total imports. It buys more Florida grapefruit than any other outside country. An instance of people of the same color and speech living in peace and harmony in adoining countries.

Bulletin 6, "Peanuts in Florida," by A. P. Spencer and W. E. Brown, takes up the soils adapted to peanuts, fertilizers, liming, varieties grown in Florida, planting, cultural practices, harvesting, production for hay, peanuts for livestock feed and other phases of peanut culture. Send to the State Experiment Station, Gainesville, for copies.

Experiments now being made at New Smyrna with a new style of retort has resulted in getting profitable quantities of turpentine, pine oil, tar, creosote and wood alcohol from old pine stumps, besides charcoal.

Unusually low round trip rates are announced by the Florida East Coast railroad with connecting lines in Southern states during June, July, August and September.

Florida boys between the age of 17 and 24 years are eligible to a month in the citizen training camps at no expense except railroad fare. These camps are maintained by the United States government. Write to Major R. C. Riley, State university, Gainesville, Florida, for details.

Classification of eggs as cold storage, shipped eggs or fresh eggs is required by a bill introduced by Fred H. Davis, speaker of the house. A penalty of $40 to $200 in fines or imprisonment not to exceed ninety days is provided. Cold storage eggs are defined as those kept in cold storage; shipped eggs are described as eggs shipped within the state, and fresh Florida eggs are classified as eggs produced in Florida which are neither wholly or partially decomposed. Labels on the crates must certify as to the kind of eggs.

MR. AND MRS. JESSE FRANK

The above photograph was taken at the recent celebration of their 50th wedding anniversary. They have been coming to St. Cloud for many years and became permanent residents six years ago.

33 DEEP WELLS FOR OIL DRILLED SINCE 1901

TALLAHASSEE, Fla., May 7.—Thirty-three deep wells for oil have been drilled in Florida and twenty-one deep water wells, according to a current structural map, issued by the state geological survey.

The wells for oil date back to 1901, when two were drilled near Pensacola, one to a depth of 1,620 feet, and the other 1,702. Since that time, at frequent intervals efforts have been extended to discover the invaluable fluid in paying quantities.

The wells drilled, the year they were drilled, and the depths, in efforts to discover oil, follow:

Cantonment, 3 miles west, year, 1906. Depth, 1,452. Pensacola, 5 miles west, 1901 and 1,620; Pensacola, East Hills, 1901 and 1,702; DeFuniak Spring, 7 miles west, 1920 and 1,888; DeFuniak Springs, 25 miles southeast, 1920 and 770; Chipley, 3 miles southwest, 1920 and 3,012; Clarksville, 4 miles west, 1919 and 1,320; Greensboro, near, 1917 and 1,750.

Tallahassee, 10 miles south, two wells, 1916, 2,100 and 2,000, respectively; Tallahassee, 10 miles southeast, one in 1921, depth, 3,755, and another in 1926, noted by the geologist as "drilling"; Monticello, 2 miles northeast, 1926, "drilling"; Lake City, 4 miles west, 1922 and 1,310; Jacksonville 8 miles southwest, 1923 and 1,700; Ocala, 16 miles southwest, 1926 and "drilling."

Cedar Keys, 3 1-2 miles north (location not shown on map) 1926 and "drilling"; Crystal River, 2 miles north, 1905 and 1,900; Sumterville, 2 1-2 miles south, 1903 and 2,002; Bushnell, 4 miles northeast, 1918, and 3,000; Dade City, 4 miles east, 1918 and 2,200; Oldsmar, Sear, 1921 and 3,255; Palmetto, near, 1924 and 1,025; West Frostproof, near, 1926 and "drilling"; Auburndale, 6 miles north, 1925 and 752; Polk City, 1 mile north, 1923 and 3,250; Kissimmee, 10 miles south, 1924 and 2,000; Palmdale, 18 miles northeast, 1922 and 2,700; Okeechobee City, 18 miles west, 1926 and depth not given; Fort Myers, 12 miles southeast, 1922 and 2,101; Fort Myers, 10 miles east, 1922 and 3,018; Melbourne, 3 1-2 miles south, 1917 and 1,000, and Miami, 40 miles west, drilling."

When Luther Burbank decided to destroy his old letters, it was discovered that he had accumulated 85,000.

BRIEFLY TOLD

(Dearborn Independent)

Rats parked in a fire hose of the Schaumberg, Illinois, fire department, checked the water to such an extent that fire destroyed $40,000 worth of property.

For Sale a Prison.' is the novel advertisement displayed in Switzerland, recently, after the building had been empty for years.

Henry III of France had so great a dislike for cats that he would faint at the sight.

The annual hunt for 'Kettlefoot,' a black bear, is again under way in the Black Mountain district of North Carolina. The bear, which hunters say weighs 600 pounds, was named from the peculiar shape of his track which resembles an old-fashioned iron kettle.

The American quick lunch, with its high stools, flipping flap-jacks, odors of "ham an'" and shrill cries of waiters, has invaded Mexico City. Sheetas are broken as the crowds flock to eat sandwiches at the new white fronts.

Trees four feet in diameter that never grow more than one foot high have been found in Africa.

SECOND LIBERTY LOAN BONDS TO BE PAID OR EXCHANGED

WASHINGTON, D. C., May 9.—Secretary Mellon has called for payment on November 15, 1927, all outstanding Second Liberty Loan bonds. Interest on these bonds will cease on November 15, 1927. Approximately $1,700,000,000 of these bonds are now outstanding.

While the bonds will be paid on November 15, 1927, it is quite probable that during the next six months the Treasury will extend to the holders of the Second Liberty Loan bonds an opportunity to exchange them for other Government securities. No announcement has as yet been made as to the type of security to be offered in exchange, or the date on which the exchange offer may be expected. The Treasury explains that the terms of the bonds require that a notice be given to the public six months in advance of the redemption date. The Secretary's announcement, therefore, does not mean that the bonds will be paid at the present time, but merely places the holders on notice that their bonds will be redeemed on November 15, and will cease to bear interest on that date.

If holders of Second Liberties desire to have their bonds redeemed, they should present them for payment on November 15, 1927, but if they desire other Government obligations in place of their Seconds, they should watch for further announcement and notify their bank to keep them informed of any exchange offering that may later be made by the Treasury.

In 1917 and 1918, it will be recalled, when the Government was selling bonds of the several Liberty Loans, a nation-wide campaign was conducted, every available facility being used to reach the public and sell the bonds. The situation is now practically reversed, and the Government is preparing to redeem or exchange some of these bonds. While no such elaborate canvass is contemplated for the redemption notice as was undertaken in 1917, the Treasury nevertheless is making a special effort to inform the holders of Second Liberty Loan bonds that their bonds will cease to bear interest on November 15th. Banks and trust companies throughout the country will be asked to cooperate with the Government in spreading the news of this call for redemption, and in advising the holders of bonds that the Treasury will probably offer new securities in exchange. For the first time the radio will be used by the Government as a means of reaching millions of bondholders. An announcement will shortly be broadcast from the larger radio stations of the country.

The importance of acquainting bondholders with the fact that their bonds have been called for payment is emphasized by the Treasury's records of previous calls for redemption or exchange. These records show that there are still outstanding at the present time, in the hands of the public about $30,000,000 in Government securities upon which interest has ceased. Included in this amount are $5,000,000 in Victory notes which ceased to bear interest in 1922 and 1923. There are also outstanding $14,500,000 in temporary bonds of the several Liberty Loans, to which were attached only a limited number of interest coupons. The last coupons matured some seven years ago. The holders of these temporary bonds have neglected to exchange them for permanent bonds having the full number of interest coupons attached, and until such exchange is made they have no means of collecting the interest. In the face of these facts, the Treasury is especially anxious that the present announcement reach as many Second Liberty Loan bondholders as it is possible to reach through the press, the radio, and the banks of the country.

The Second Liberty Loan, which was issued in November, 1917, was the second large loan floated by the Government during the World War, and while this loan does not mature until 1942, the condition of the money market and of the Government's finances makes it possible and advisable to call the bonds for redemption in November.

TO ALL HOLDERS OF

SECOND LIBERTY LOAN BONDS

NOTICE OF REDEMPTION

All outstanding Second Liberty Loan 4 per cent bonds of 1927-42 (Second 4's) and all outstanding Second Liberty Loan Converted 4¼ per cent bonds of 1927-42 (Second 4¼'s) are called for redemption on November 15, 1927, pursuant to the terms of their issue. Interest on all Second 4's and Second 4¼'s will cease on said redemption date, November 15, 1927.

Holders of Second 4's and Second 4¼'s will be entitled to have the bonds redeemed and paid at par on November 15, 1927. Such holders may, however, in advance of November 15, 1927, be offered the privilege of exchanging all or part of their bonds for other interest-bearing obligations of the United States. Holders who desire to avail themselves of the exchange privilege, if and when announced, should request their bank or trust company to notify them when information regarding the exchange offering is received.

Further information may be obtained from any Federal Reserve Bank or branch, or from the Commissioner of the Public Debt, Treasury Department, Washington.

A. W. MELLON,
Secretary of the Treasury.

My Remington Portable does all the work

The Recognized Leader in Sales and Popularity

THE Remington Portable is almost human in its adaptability to your problems. Maybe you are on the track team—possibly you are out for crew—and you need all the spare time you can get. That's where the Remington Portable shines. It speeds up your work and gives you more time for other activities.

It is the handiest, fastest, most dependable and simplest to operate of all portables. It weighs only 8½ pounds, net, and since the carrying case is only 4 inches high, you can put it away in a drawer when not needed.

Smallest, lightest, and most compact of standard keyboard portables, is it any wonder it is the recognized leader in sales and popularity?

Terms as low as $10 down and $5 monthly.

Gov. Gilchrist's Administration Takes Lead in Legal Executions

More executions of condemned men took place during the term of Gov. A. W. Gilchrist than any other governor's administration from 1901 to 1928, inclusive, according to the latest biennial report of the state prison division.

Thirty-nine legal executions were held while former Governor Gilchrist was in office, or two more than the administration of former Gov. W. S. Jennings. Governor Gilchrist held the executive chair from 1909 to 1912, and Governor Jennings from 1901 to 1904.

The administration of Governor Jennings, however, found more death sentences pronounced than during any other four-year term since he went out of office. He signed forty-seven death warrants. Of that number there were eight commutation to life imprisonment, one was killed while trying to escape and another died in jail.

Six Commutations

The administration of Gov. Park Trammell was third in death sentences pronounced, and in legal executions, with forty-two of the former, and thirty-two of the latter. Of the forty-two condemned to die, six were given commutations, and there were four reversals by the Supreme Court.

During the term of Gov. N. B. Broward, from 1905 to 1908, thirty-nine were sentenced to die, and twenty-six were executed. Six of the sentences were commuted to life imprisonment; one was recalled by the lower court, and one died in jail.

Gov. Sidney J. Catts, in office from 1917 to 1920, signed sixteen warrants, and fourteen were executed. There were two commutations.

Less Arduous

Gov. Cary A. Hardee, 1921 to 1924, found the business of signing away persons lives less arduous than any other chief executive for the 25-year period. He was called upon to put his signature to but fourteen of the black and white documents, and during the term of office there were but ten executions, three being commuted to life and one being still fought in the Supreme Court when Gov. Hardee went out of office.

The term of Gov. John W. Martin found more litigation in connection with death warrants than perhaps any previous chief executive. Governor Martin, in 1925 and 1926, the prison division's figures show, signed nineteen death warrants, and only eight had been executed at the end of the present governor's second year. Eleven cases were listed as "pending" in the statistics.

FLORIDA STATE CHAMBER OF COMMERCE

Eradication of the cattle tick in zones where the work has been completed by the State Livestock Sanitary Board has resulted in a complete reversal of opinion on the tick question, according to Dr. J. V. Knapp, State Veterinarian. In many counties in West Florida, where the work got under way with many of the people objecting to it, the original opponents of dipping now declare they would not go back to the old condition of things under any circumstances.

Liberty county, immediately east of the Apalachicola River, has been struggling for some years as a result of the depletion of its timber. It possesses few farms, has no incorporated towns and its population has dwindled to something like 4,000. Liberty does possess many range cattle, however. With eradication of the tick, Liberty is preparing to convert itself into a cattle raising county. It has recently received a car load of the finest strains of Aberdeen-Angus sires and has arranged for a second car load to be delivered next fall. Other counties in the recently freed sections also are preparing to import blooded sires, according to Dr. Knapp, and from twelve to fifteen car loads of such cattle will be brought into the territory during the fall.

There is no argument over the assertion that a profitable dairy industry and the cattle tick can not exist side by side, according to officials of the State Livestock Sanitary Board. West and North Florida counties, realizing this fact, are working over time to eradicate the tick and build up dairy herds in order to produce milk in large quantities for a profitable market, Florida itself. The city of Miami alone imported 1,064,198 gallons of fluid milk during 1926, according to Dr. Knapp, of which 415,249 gallons were utilized for manufacturing purposes. In January 1927 one dairy company in Miami imported 10,800 gallons from Pennsylvania, 16,030 gallons from Alabama and diverted 13,000 gallons of locally produced milk to manufacturing purposes. One company in Tampa was reported by milk inspectors as receiving 150 gallons of cream daily from Ohio and 100 gallons daily from Georgia, while another concern in the same city was receiving 100 gallons from Jacksonville shipped in from another state. The significance of these figures, declared Dr. Knapp, is in the fact that each gallon of cream represents six gallons of fluid milk. These 350 gallons of cream going to Tampa daily, therefore, represents 63,000 gallons of milk monthly, the veterinarian asserted. Jacksonville is importing approximately 6,900 gallons of cream monthly.

The average number of persons per dairy cow in the United States as a whole, is about five to one, according to Dr. John R. Mohler, Chief of the Bureau of Animal Husbandry, United States Department of Agriculture, in a recent statement. Dr. Mohler added that the ratio in Florida is ten to one.

H. R. Smith, live stock commissioner of the National Live Stock Exchange, Chicago, declares that Florida produces only ten per cent of the beef it consumes and adds that in eradicating the tick the state is laying the foundation for what is destined to be an important source if wealth. Mr. Smith in discussing the grade of cattle sent to the slaughter house, states that the plant of Swift & Company at Moultrie, Ga., paid an average of only $3.90 per hundred pounds, indicating that the bulk of cattle slaughtered in this section were of the native piney woods type. The Moultrie plant handles quantities of Florida cattle. Mr. Smith added that the manager of the Moultrie plant has told him they would rather pay double that sum for cattle having more quality and flesh. Against this figure of 3.90 cents per pound seventy-five per cent of the cattle consumed in Florida last year in the form of beef imported from other states, cost from eight to ten cents a pound in the northern markets. If Florida can produce cattle of good quality, which can be done in tick free areas, says this authority, they will command a price of advantage to the producer.

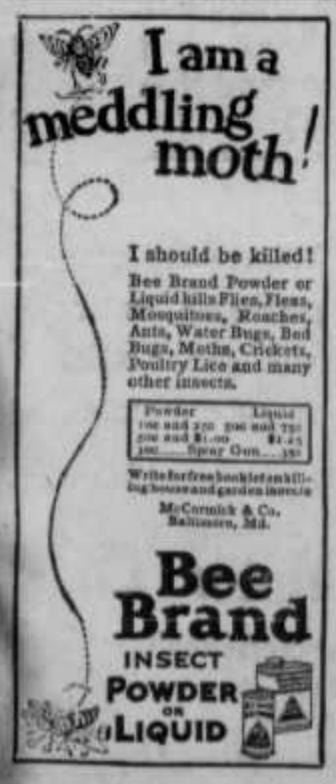
Eradication of the tick makes it possible to grade up for quality, declares Mr. Smith, and this is what West Florida is setting out to do by importing pure bred sires for crossing with the native cattle. The beginning of eradication work in Taylor county has resulted in the sale of more than twenty thousand head of cattle to an Oklahoma concern. The Taylor county cattlemen disposed of their stock with the agreement that they could retain such cattle as were desirable for breeding purposes and they are arranging to import pure bred sires as soon as the county is free from the tick.

Jefferson County, where tick eradication work has just gotten under way, has received within the last few months several of the finest show herds of Jerseys and Holsteins in Canada and the United States. The county was not free from ticks when these cattle arrived, but their owners began a year ago to make preparations to move them to Florida and the limited areas upon which they were domiciled were freed of the pest by fencing and other methods prior to their arrival. Jefferson is now producing approximately 1,000 gallons of milk daily but without a creamery or milk depot of its own is forced to haul its surplus to Madison for disposal. Madison County's dairy industry is growing because of precautions taken against the tick by the cattle owners in limited areas, prior to the beginning of work by the state.

If there is any doubt about the damage wrought by the cattle tick a report made by the County Agent in Levy County a year ago should settle the question. An investigation he made disclosed that within a year thirty per cent of the range cattle in that county had died of the fever resulting from the tick bite.

Last year there were 1,141 American airplanes in commercial and mail service, flying a total of 12,035,100 miles, carrying 387,852 passengers, 782,678 pounds of freight and express and 24,406,800 letters. Airplane operations embraced aerial passenger service, express of merchandise, mapping, photography, crop dusting, exploration news service and many other uses. From the pony express to the air mail was a big jump as was the transition from the parlor photograph album to the motion picture. The first regular American airplane service was between Key West, Fla., and Havana, Cuba.

Does the weather on certain days of the year control the weather for long periods in the future? No, says the U. S. Weather Bureau.



In Confidence

Readers desiring a personal reply can address Miss Flo, in care of this newspaper.

Cheating Leads Nowhere!

Dear Miss Flo:—

I am a young girl of twenty, engaged to a very fine man, and I really love him and want to marry him. But I must admit that I like going out with other young men occasionally—and do. Somebody told my fiance recently that I had gone out with another boy on an evening I had broken a date with him. As a result, we have had a terrible quarrel and it will probably end in our engagement being broken. I guess I should not have gone, but I didn't think Frank would learn about it.

Don't you think people who gossip commit the unpardonable sin?

Ellie.

People who indulge in gossip may be small and mean and petty—but they are the most powerful influence we have for good. We may be able to muffle the voice of our conscience, but we can't silence the voice of the town gossip, and no matter how vain and egotistic we are—or how self-satisfied and independent—we are all cowards in the face of public opinion.

It is the lifted eyebrow—the cold, measured, disapproving look which we dread more than anything else. And if we could do as we pleased and get away with it many otherwise righteous people would leave the straight and narrow for the primrose path.

There is no better nor no more exacting chaperon than Mrs. Grundy! No more efficient keeper of the law could be found.

For it is fear of gossip and what the girls would say about her at the next club meeting that keeps the bored young married woman with romantic yearning from indulging in any flirtations with the good-looking bachelor who lives at the town hotel. It is fear of gossip that makes many an indiscreet girl watch her step, and saves her from many compromising situations.

A person who gossips is certainly not the most admirable type in the world—but those who are down on gossip and feel that the world should cover up their shortcomings with silence are unreasonable. If you wouldn't have things known of you don't do them. The world is full of people who, when they have no immediate personal motive for keeping still about a choice bit of gossip will spread it far and wide.

And that such gossips do exist every girl will learn to her sorrow if she scatters her favors promiscuously, and if she tries to take pleasures secretly which she has no right to enjoy.

A girl engaged to one man who slips away with another has no logical reason for expecting that those who see her will not pass the news on, or that the man she is with, and to whom she means no more than a passing amusement, won't boast of his conquest during his first confidential mood.

If you do not care enough for the man you are engaged to to willingly forego amusements other men offer, you have no right to be engaged; if you are so fickle that you cannot be content without the attention and flattery of other men—then you will only make the man you marry unhappy—and if you cannot be bored now with the man you say you love and really want to marry—then you will certainly come a cropper after you are married, for a cheater always gets what he or she deserves.

For cheating at cards, or in business, or in love, or in marriage is much the same. The principle holds true that you will be caught sooner or later.

And you will have no one to blame but yourself.

NEWS NOTES

Governor Richardson of California had a letter from 9-year-old J. B. Earp, who applied for a job as office boy during vacation and added, "I expect to run for governor when I get grown." The youngster appears to have a good idea of how to make a start for his goal, and who knows but that he may reach it?

A New York legislator refutes the story of eNro's fiddling while Rome burned by reminding us that the violin was not invented until about fifteen centuries after that big fire.

Ministers of the Grape Belt Association in the state of New York have protested against straw votes on prohibition, which indicates that the grape market is satisfactory under present conditions.

Charles Snaingler, a sailor, gave his blood for transfusion to save the life of Lieutenant Commander Cochran, but Comptroller-General McCarl disapproved his bill for $25 presented to the government, on the ground that there is no legal authority for Uncle Sam to pay for blood. Another victory for red tape.

Be careful about giving charity donations to strangers. Impostors wearing Salvation Army uniforms have solicited funds in Oklahoma and Major Bennett o fstate headquarters has issued a warning against them.

De Valera in America. Thousands of admirers greeted Eamon De Valera, Irish Republican leader, when he landed at New York on his first visit to the United States in over six years. Mayor Walker greeted him as "a native New Yorker." De Valera came here to try to untangle litigation tying up $2,500,000 in Irish republican funds.

Office Work is the vocation in which women stand the best chance of marriage, according to a recent survey.

MINNESOTA TOWN HAS THREE STUDENTS WITH RECORDS OF 12 YEARS OR BETTER

The perfect attendance National School contest in which this newspaper participated, now has college students clamoring for entrance, which of course cannot be accepted, inasmuch as this contest is for grade and high school only. Three pupils tied for that honor, with perfect attendance of 12 years of school without having missed a day of being tardy.

With such marks to shoot at, entries fell off this week, only four names being added to the honor roll. They are:

Alice Catherine Hixon of Highland, Ohio, 9 years.

Florence Capistran, Mexico City, Washington, 8 years.

Eric Lovenberg, Seattle, Washington, 5 years.

Francis Nazera, Pike County, Missouri, 5 years.

Civic pride also has made its entrance into the contest. Ellsworth, Minn., announces that it is willing to pit its entry against any other town, as having the greater number of students with the best school attendance records.

Ellsworth, Minn., points with pride to three students with a record of twelve years or better. However, it enters Edwin Nordman, now almost 19 years old, with a record of 14 years perfect attendance. Edwin, whose picture is printed herewith, finished grade and high school at 15 years of age—and now is in college, never having missed a day or tardy at any time.

Viola Nordmann, sister of Edwin, is now finishing high school, with a perfect 12 year record. Leone Roll also of Ellsworth has attended school there for 12 years without having missed a day or being tardy.

These two girls now join the ranks of the three who have had the field for several weeks, making five in all with perfect 12 year records.

Perfect---but Second

Laura Maurer, 17 of Boyertown, Pa., now takes second place in the national school contest, having attended school 11 years, 7 months and 14 days without having been absent or tardy. She graduates this spring. As previously announced three pupils are tied for first place with a record of 12 years.

ADMINISTRATION CITATION

IN court of County Judge, Osceola County, State of Florida. Estate of Charles E. Thomas.

By the Judge of Said Court.

Whereas, William E. Cook has applied to this court for Letters of Administration on the estate of Charles E. Thomas, deceased, late of said County of Osceola;

These are, therefore, To cite and admonish all and singular the kindred and creditors of said deceased to be and appear before this Court on or before the 16th day of May, A. D. 1927, and file objections, if any they have, to the granting of Letters of Administration on said Estate, otherwise the same will be granted to said William E. Cook or to some other fit person or persons.

WITNESS my name as County Judge of the County aforesaid this the 11th day of April, A. D. 1927.

(Seal) J. W. Oliver, County Judge.

41-Apr 14-May 10-WEC

NOTICE

Sealed bids will be received by the Board of Road Trustees of Atlantic-Gulf Special Road and Bridge District of the State of Florida, at the office of the Secretary of said Board, Rooms107-111 Farmers' Bank Building, Vero Beach, Florida, up to the hour of 10 o'clock a. m., June 8th, 1927, for the purchase of $250,000 par value of bonds of Atlantic-Gulf Special Road and Bridge District of the State of Florida. Each bid shall be accompanied by certified check for $2500.00, payable to the order of Board of Road Trustees of Atlantic-Gulf Special Road and Bridge District of the state of Florida, and the right is reserved to reject any and all bids.

Said bonds consist of Two Hundred Fifty $1,000 coupon bonds, dated September 1, 1925, bearing interest at the rate of six per cent per annum, payable semi-annually on March 1 and September 1 of each year; both principal and interest payable to the bearer in gold coin of the United States or its equivalent, at the United States Mortgage & Trust Company, New York City, N. Y. The principal of said bonds matures as follows:

Numbers 501 to 520, both inclusive, due and payable September 1, 1942; Numbers 521 to 540, both inclusive, due and payable September 1, 1943; Numbers 541 to 560, both inclusive, due and payable September 1, 1944; Numbers 601 to 620, both inclusive, due and payable September 1, 1945; Number 641 to 660, both inclusive, due and payable September 1, 1946; Numbers 661 to 700, both inclusive, due and payable September 1, 1947; Numbers 721 to 740, both inclusive, due and payable September 1, 1948; Numbers 741 to 780, both inclusive, due and payable September 1, 1949; Numbers 801 to 820, both inclusive, due and payable September 1, 1950; Numbers 841 to 860, both inclusive, due and payable September 1, 1951; Numbers 861 to 900, both inclusive, due and payable September 1, 1952; Number 921 to 940, both inclusive, due and payable September 1, 1953; Numbers 961 to 970, both inclusive, due and payable September 1, 1954.

These bonds have been validated by decree of the Circuit Court in and for Indian River County, Florida, and the approving opinion of Messrs. Caldwell & Raymond will accompany the bonds.

Address all bids to B. T. Redstone, Secretary of Board of Road Trustees Atlantic-Gulf Special Road and Bridge District, Vero Beach, Florida.

By order of the Board of Road Trustees of Atlantic-Gulf Special Road and Bridge District.

B. T. REDSTONE, Secretary

GOOD BUSINESS INDICATED BY RECORD GRAHAM BROTHERS TRUCK SALES

Retail deliveries of Graham Brothers trucks and commercial cars to customers by Dodge Brothers dealers now are averaging more than 250 a day.

This volume of sales practically equals the high average of 1926 when all previous records of the company were broken with a total of 67,293 commercial car and truck deliveries. Coming well in advance of the peak buying season, the present large sales indicate another record breaking year for Graham Brothers.

Since the beginning of the year, the growing popularity of Graham Bros. trucks has been shown by constantly increased deliveries to retail purchasers. For the week ended April 2, a total of 1,277 commercial cars and trucks were sold by dealers in the United States alone compared with 1,174 for the preceding week and 1105, 997, 929 and 899 respectively for the week's preceding.

The unquestionable approval of Graham Bros. trucks and commercial cars by users throughout the world is shown by this record demand.

The increased sales reported by this leading truck manufacturer indicate improved business conditions as the spring season advances, for motor truck sales are a barometer of general business activity.

Six American, two Canadian, three Spanish, two French, six Italian, five Belgian coins, one German mark and a street car pass between Philadelphia and Wilmington, Delaware, were found in a collection taken at St. Patrick's Catholic Church in London.

Prince Maelgwn Gwynedd of North Wales, to prove the superiority of song over instruments into the river Conway and then swam across followed by his singers. The harps were useless after the soaking while the singers sang as before.

TAMIAMI TRAIL LET BY STATE ROAD DEPARTMENT FOR COMPLETION OF HIGHWAY

TALLAHASSEE, Fla., April 30.—Contract for building the last gap in the Tamiami Trail, famous cross-state highway from Miami to Tampa, was let by the state road department to Alexander, Ramsey and Kerr for $187,000, or about $43,000 a mile.

All of that highway through the lower end of the Everglades is now under construction or under contract, Chairman F. A. Hathaway announced. The same company which will build this last small link from the Collier county line to the end of the last contract in Dade county is the same one which has finished the trail through Collier county.

During the past week, the legislature has authorized Collier county to sell $750,000 worth of bonds to finish and pave the trail through that county.

The road department Thursday received bids for four bridges in Sarasota county on Road 5, seven bridges on the same highway in Lee county, an overhead crossing on Road No. 2 over the Atlantic Coast Line in Lake county, and a similar overhead across the Florida East Coast on the Dixie highway near Vero Beach.

Bids will received on May 12 to put the whole of Road No. 28 through Bradford county under construction. This is the "short-cut" between Lake City and Palatka. On the same date, the department will receive bids for paving the Dixie highway from Bunnell to the St. Johns county line and paving the same highway from Vero Beach to Fort Pierce.

With his signature on the two Everglades bills passed last week by House and Senate with almost unanimous consent, Governor John W. Martin is ready to begin the more open work of starting reclamation of the Everglades on a substantial scale. With the bills authorizing the issuance of 20,000,000 in Drainage Funds safely enacted into law, the governor is prepared to finance any plan the drainage board or the legislature may select from the recommendations of the commission of drainage experts now at work. It is expected that some of the first money from new bond issue, which Governor Martin had assured of a market in New York by his recent trip to that city, will go toward paying off the Arundel Corporation and other contractors who have accepted notes from the drainage board as pay for their work.

It is thought that only about three-fourths of the present bond issue will be needed in performing the state part of drainage. Only so much of the issue as is needed will be sold from time to time but assurance has been given that the whole issue will be sold as money is found necessary for digging canals.

The governor soon expects to appoint a resident engineer to have control of drainage operations in the Everglades, and a local board to work with the state board in controlling future operations there. He also will set up his own headquarters at West Palm Beach or Okeechobee, and has announced that he will spend a large part of his time in the Everglades supervising the work to the extent of keeping all state machinery moving and placing himself in a position to advise with the people of the Everglades.

42 LOCAL MEASURES SIGNED BY GOVERNOR

TALLAHASSEE.—Forty-two local bills passed by the legislature were signed today by Governor Martin. The more important bills follow:

Amending the laws of 1923 abolishing the municipal government of Leesburg; amending the laws of 1925 establishing the municipality of Anna Maria; authorizing the Manatee county public instruction board to issue warrants of $300,000; authorizing a bulkhead, or bulkheads along lake fronts of Eustis; amending the acts of the 1925 extraordinary session abolishing the municipality of Labelle; amending the laws relating to the probation office and assistant probation officer of Hillsborough county; validating proceedings for levying assessments of property in Sarasota; validating $59,000 worth of street improvement bonds for St. Cloud; prohibiting the running at large of stock in certain sections of Hillsborough county; authorizing Groveland to conduct tax sales; authorizing Auburndale to assess certain costs of street and sidewalk improvements; declaring, designating and establishing a certain state road.

SCIENCE NOTES

With the aid of special measuring apparatus, Prof. F. M. Andrews of Indiana university has found that the stalks of some plants grow more in the night than they do in the day. The leaves showed as much development in the light as they did when the sun was down.

The use of lime to reduce acidity in cream for making butter was discussed recently by Prof. O. R. Overman, of the University of Illinois. The treatment, he says, prevents excessive loss of fat which would result from churning cream that had been pasteurized while very sour; eliminates undesirable flavors, and produces butter that keeps longer.

Static decrease and radio-station strength increases with and in proportion to acceleration in the train's speed, experiments with a receiver on board a car of the Northwestern railroad have shown. A steel bridge with no superstructure, helped to increase the volume of the reception while one with a superstructure decreased it.

Pieces of a tree believed to have been buried at least 50,000 years ago were brought up from a depth of 754 feet while digging a well in Tacoma, Wash., recently. The wood was well preserved and the bark readily distinguishable from the rest of the trunk.

Quantities of better spark plugs are expected as a result of the discovery of a huge deposit of cyanite, a silicate of aluminum, that can withstand repeated exposures to high temperature, in North Carolina.

A charity dinner in New York was over sold at $100 a plate. To remove all doubt we will say that there should be no period between the figures.
